

CAN BE NO BARGAINING, SAYS BRITISH NEWSPAPERS

London, Feb. 25.—We are obliged to say at once that there can be no bargaining on this subject, says the Westminster Gazette, in referring to the American notes to Great Britain and Germany concerning the situation which has grown out of Germany's naval war zone decree. The editorial continues: "The pressure of our sea power is a perfectly legitimate operation of war. Germany had full warning from her own economists what must happen if she risked a prolonged war with a superior sea power. By making grain supplies public property and still more by putting her population on rations, she entitles us to treat these supplies as contraband of war. On her own principle of limited consumption, the supplies of the civil population could not be increased in the manner suggested. The results simply would be to leave the government large supplies for military purposes. "Who can suppose that if the positions were reversed and Germany were the superior sea power she would listen to such a proposition if made by us? It may be a German necessity to win the war by starving her population, but it cannot be incumbent on us to facilitate her scheme of conquest by saving her civilian population from liabilities which she deliberately incurred on their behalf."

U. S. SEEKS TO HALT RETALIATORY ACTS OF BELLIGERENTS

Washington, Feb. 25.—Increasing interest is being manifested in official and diplomatic quarters here in the outcome of negotiations on the part of the Washington government with the British and German governments with a view to ending danger to American shipping in the retaliatory measures of the European belligerents towards each other.

RESENTMENT SHOWN BY ENGLAND

London, Feb. 25.—The proposals of Washington to Great Britain and Germany, which in London are assumed to embrace the abandonment of Germany's self-declared war zone and the adoption by the belligerents of some definite policy regarding foodstuffs for the civilian populations have noticeably quickened the public interests both in this country and in Germany in this delicate situation.

The British press in general is restrained in tone but the average Englishman plainly represents what he considers a hint at an attempt to interfere with the absolute blockade of Germany should Great Britain care to enforce this with her sea powers. In the meanwhile Great Britain still holds off from declaring food destined to Germany to be contraband. It is believed, if this step is taken, that it will be postponed until the American proposal has been discussed at length.

How the British cabinet feels about this matter would appear to have been plainly indicated by the statements made by foreign Secretary Grey, Premier Asquith and First Lord of the Admiralty Churchill, all of whom have more than hinted that dramatic retaliatory measures might be expected at any moment.

BECKER ASKS FOR NEW TRIAL

Charles Becker (top) and Herman Rosenthal.

New York, Feb. 25.—A motion for a new trial for Charles Becker, the former police lieutenant convicted for the murder of Herman Rosenthal, was made in supreme court today. Becker's counsel said he based his motion on newly discovered evidence to the effect that one of the state's witnesses, to a material fact, had testified falsely at Becker's second trial. Attached to the papers was the affidavit of James Marshall, made in Philadelphia recently in which Marshall repudiated a part of his testimony at the second trial.

Columbus, Feb. 25.—Legislative agents for railroads today were canvassing legislators with the purpose of urging favorable action on the Thatcher 2 1/2 cent fare bill, and advising the killing of another measure to regulate freight rates which promises to appear soon, backed by miners and coal operators interests. Specific terms of the coal rate bill, intended to correct all alleged discrimination of roads against Ohio mined coal and in favor of that produced in West Virginia, were made public today.

GERMANY CONSIDERS PROPOSAL

Berlin, Feb. 25.—Nothing has been made known up to the present time of the conference of German statesmen last night to discuss the American identical notes on maritime warfare and the feeding of civilian populations sent by the United States government to both Great Britain and Germany.

GERMANS TAKE STRONGLY FORTIFIED RUSSIAN TOWN

Berlin, Feb. 25.—(Via London)—The town of Przasnysz, Russian Poland, was yesterday taken by storm by German forces, according to the official announcement given out in Berlin today. The Germans captured 10,000 Russian prisoners.

The report is dated February 25 and reads as follows: "The town of Przasnysz, in Russian Poland, which had been extensively fortified, was stormed yesterday by the East Prussian reserves. After a stubborn fight we were victorious, capturing more than 10,000 prisoners, over 20 cannon, a large number of machine guns, and a very large amount of war material."

"In other engagements fought north of the river Vistula during the past few days we have taken 5,000 Russian prisoners. Russian General Didn't Know Antwerp Taken"

"It is characteristic that the commander of the forty-seventh Russian reserve division, after being taken prisoner, asked German officers whether it was true that Antwerp was being besieged by the Germans and soon would fall. When the situation on the western front was explained to this Russian officer, he refused to believe that the German western army was on French soil."

Columbus, Feb. 25.—The governor planned to send to the senate for confirmation today the names of A. S. Frazer of Xenia; and William B. McMaken, of Toledo, as trustees of the Ohio Soldiers and Sailors' orphans home at Xenia.

CONTRADICTIONARY CLAIMS MARK EASTERN WARFARE

London, Feb. 25.—Now that the Russians have made a stand on their own soil the fighting in the Eastern arena of the war is resolving itself into a mass of contradictory statements and counter claims.

The German claims of a victory in Russian Poland are circumstantial and detailed. The Russian denials while emphatic, are sweeping and general.

It appears from despatches reaching London that at the present moment neither the Austrians nor the Germans are making headway anywhere on the line from the Baltic to the Carpathians. British observers are calling attention to the fact that there apparently has been no decisive battle at the northern extremity of the line to prove whether the recent advance will be of lasting value or not.

MADAME BERNHARDT

A fall on the stage, causing permanent injury to the knee, was what brought about the amputation of the right leg of the famous French actress at Bordeaux on Monday. The cheerfulness of Madame Bernhardt in the face of the operation indicates her possible recovery, but her age—71 years—may be against her. The lecture platform will claim the world's most distinguished actress, now that she can no longer attempt dramatic characterizations.

ENGLAND AGREES TO RUSSIA'S DESIRE FOR ACCESS TO THE SEA

London, Feb. 25.—Sir Edward Grey, the foreign secretary, announced in the house of commons today that Great Britain was in entire accord with Russia's desire for access to the sea.

"With Russia's desire for access to the sea England is in entire accord," the foreign secretary said, in response to a question from Frederick W. Jo. well whether England knew of and approved the statement of the Russian foreign minister, M. Sazanoff, that Russia intended permanently to occupy Constantinople.

The foreign secretary responded that he was unaware that M. Sazanoff had made any such statement but he added: "The statement I have seen was that M. Sazanoff had said that the events on the Russo-Turkish frontier would bring Russia nearer realization of the political-economic problem bound up with Russia's access to the sea."

"With these aspirations," he continued, "England is in sympathy."

pathy. What form their realization will take will no doubt be settled in the terms of peace."

Russia's Aspirations Would Be Fulfilled

The announcement of Sir Edward Grey marks one of the important developments in the European political situation since the beginning of the war. Russia's desire for a warm water port and an unrestricted outlet from the Black sea has long been one of her most cherished national aspirations. Speaking in the duma on February 9, Premier Goremykin said: "Turkey has marched with our enemy, but her resistance already has been shattered by our glorious Caucasian troops, and the radiant future of the Russians on the Black sea is beginning to dawn near the walls of Constantinople."

The attitude of Great Britain in the event that the fortunes of war should favor Russia in the struggle with Turkey has been an open question.

ROCKEFELLER SAYS HE IS NOT AN OHIOIAN

New York, Feb. 25.—John D. Rockefeller today testified by deposition at his home at Pocantico Hills in an effort to avoid paying a personal property tax of \$1,150,700 levied upon him by the Cleveland, Ohio, tax authorities. Mr. Rockefeller testified that he was not a resident of the state of Ohio, had not been for the last 15 years and that consequently he could not be taxed in that state.

Mr. Rockefeller testified that he moved to New York from Cleveland in 1885 and established his domicile here. He said he was now a citizen of New York and had regularly been assessed by the proper authorities in this state and had paid his taxes regularly in this state.

Mr. Rockefeller was assessed on \$311,000,000 personal estate by the authorities of Cuyahoga county on the grounds that he had spent the greater part of the year ending February 1, 1914, in the state of Ohio and that consequently he had established a legal residence there. The assessment was upheld by the board of complaints and Mr. Rockefeller filed a petition in the federal courts, asking for an injunction to restrain the tax officials from collecting the tax. A temporary injunction was granted. Mr. Rockefeller then applied for a permanent injunction.

Columbus, Feb. 25.—Possibility of the senate drainage and irrigation committee reporting on this week the Carver bill to amend the Vanderheide conservancy act appeared slight today.

Don't blame me if this weather don't suit you. The first of March is comin' and I've gotta get busy and do something. My feet swelled so badly that I couldn't put my shoes on and I had pus spots under my eyes. I doctored and used several medicines with no relief. # The Movies

At The Lyric Today  
Evelyn Nesbit today in the powerful production "The Threads of Destiny." This will be one of the picture sensations of the year. It is all it ought to be from a dramatic standpoint, and the star is surrounded by one of the greatest acting companies ever brought to the Lyric all this week. "The Weight of a Crown" next Monday will be the best picture of its kind since "The Prisoner of Zenda." Harry Myers is the star and does some fine work.

Great Pictures Coming  
A number of top notch moving picture features are coming to Portsmouth in the near future, as the Columbia and Lyric theatres have booked screen of the George Kleanes films.

The Lyric will show "Stop Thief," "Spartacus," and "Napoleon," while the Columbia has booked "Officer 666," "Julius

Caesar," "From Savage to Tiger," and "Last Days of Pompeii."

"Stop Thief" and "Officer 666" made big hits when they appeared at the Lyric, both being screaming comedies. "Julius Caesar" is an Italian feature in which 20,000 people appear, and "Napoleon" is of a similar nature. "Spartacus" is likewise a magnificent spectacle. "From Savage to Tiger" is a thrilling picture introducing numerous wild animal scenes. "The Last Days of Pompeii" will be a return engagement, having made a hit here when shown for 20 weeks. It will probably be shown this time at a cheaper price.

Kathryn Williams, Columbia Tonight, Paramount Day Tomorrow

Don't fail to see Kathryn Williams at the Columbia tonight in "The Vision of the Shepherd," one of the most beautiful little stories you have ever seen in motion pictures. In this picture Miss Williams is supported by Charles Clark, Frank Clark, Wheeler O'Connor and others who appeared with her in the greatest of all pictures "The Spoilers."

In addition to this special feature, another of those famous "Fables in Slang" by Geo. Ade will be shown.

For tomorrow, Paramount Day, Henry W. Savage in association with the Famous Players Lasky Company, offers Edward Abeles in "The Million," a ninth generation comedy in four reels which convulsed capacity houses for a long time during its New York engagement.

This is without any doubt, one of the funniest of all comedy pictures and is ably described as a thrilling mystical farce with as many laughs as the hills.

If you wish to forget your troubles and enjoy a good hearty laugh, don't overlook "The Million" at the Columbia tomorrow, Friday.

At The Exhibit Tonight  
Miss Jackie Saunders as "Little Jack." This clever little actress takes the part of a boy in this feature and does some detective work that is marvelous. "Little Jack" is a box office feature, a regular 10 cent feature for a nickel. The management of the exhibit takes great pride in the music and gives the patrons all the best high class music. This is bargain night. Don't miss it. Tomorrow's feature is "The Cruise of the Hell Ship."

Hell Parsons, his temper always violent, becomes ungovernably cruel upon the slightest provocation. He is the captain of a tramp vessel known over the seven seas as "The Hell Ship". Outside of San Francisco Bay a ferryboat is sunk in a collision as he is passing, and his savage sailors rescue Walter Van Brunt, a literary man of culture and refinement, from drowning.

Capt. Parsons compels him to do the work of a scullion. But his terrible tyranny finally exhausts the crew's patience and they beat him and toss his unconscious body overboard. The water revives him, however, and he succeeds in reaching the deck of his craft. The mutinous pirates are quickly subdued with fists and marlinpike and "The Hell Ship" sails on.

A small boat is sighted containing a young girl. Hell Parsons permits her to be rescued. Once aboard the fiendish captain learns her name is Christine Miller and at once begins molesting her.

Van Brunt goes to Christine's assistance when Parsons is most abusive. He smashes in a door and is about to stab the wicked sea dog when his hand is arrested by the girl he seeks to save. Instead of punishing Van Brunt Parsons admires his courage.

Naturally a bond of sympathy that ripens into love springs up between Van Brunt and Christine and they plan to escape in a small boat.

Parsons is subject to most violent headaches which become so severe that they leave him fatal.

At The Temple  
"One Night Up" is the title of the big feature the Temple theatre is offering tonight. It is a thrilling newspaper story wherein the crooks are captured and the girl lands a big story for her paper. Irene Hunt and Ralph Lewis play the leading roles.

The third reel is a Princess, featuring Mariel Ostriche and John Reinhard in a jolly little comedy. The fourth reel "Probation" is a story of Spartan judge's mistake. In the east are Corn Draw Loretta, Blake F. McDermott and Joseph Chumler.

"The Master Key" Tonight  
At Arcana Theater  
Manager Potts of the Arcana theater is pleased to announce to his many patrons that he has for tonight's performance the first episode of the "Master Key," a production that has proven a whirlwind wherever shown, and one that has taken the large cities by storm. "The Master Key" consists of fifteen episodes and you most surely want to see No. 1 tonight as to keep a connected story in your mind. Don't forget that this is one of the greatest dramas ever shown on canvas and in the large cities commands 25 cents admission. However, Manager Potts, who is ever keeping upmost in his mind the interests of his large army of patrons will put on this great show for the small sum of 5 cents to all. See it tonight.

The Sun  
The Barrett Players are to present a southern play entitled "For Legal Prisoner," for the last half of this week. This is said to be something new in the way of a plot as it deals with the convict labor law of the extreme south. Of course it has the old story of a woman's love, and it also has a great comedy vein. Mr. Barrett said it could safely be called a sensational comedy of interest. Tonight is photo night.

# GERMANS MAKE CONTINUOUS ATTACKS IN EAST PRUSSIA; FIGHTING BECOMES INTENSE

Petrograd, Feb. 25.—The escape from a ring of German troops of two regiments of the 29th Russian division, who were surrounded during the retreat from East Prussia, is recorded in an official communication given out by the general staff last night. It is stated that the Germans are making continuous attacks all along the front from the Bohr district at Jedwabno as far as the Vistula in the region of Bodzinnow. Minor successes for the Russians in the Carpathians are claimed as the result of desperate fighting. The communication follows:

"North of Grodno there were actions Tuesday near Jaszwyn and St. Albine.

"In the Augustowo forest two regiments of the 29th division,

who had been surrounded during the retreat, broke through the enemy's lines and rejoined our forces. Patrols of the enemy are attempting to cross to the right bank of the Niemien.

"The battle is extending on the right bank of the Narew where attacks by the Germans are continuous all along the front from the Bohr district at Jedwabno as far as the region of Bodzinnow on the Vistula.

"Fighting is becoming very intense in the Przasnysz region. On the left bank of the Vistula we repelled attacks of the enemy at the village of Boguslar and at points to the west of Opoczno and Lopuszko.

# GERMANY'S BLOCKADE OF THE BRITISH ISLES INCREASES ITS TOLL

## BULLETIN

London, Feb. 25.—The small British coasting steamer West-ern Coast has been sunk by a mine or torpedo in the English Channel at a point off Beachy Head. The crew was landed at Portsmouth today.

London, Feb. 25.—One sailor lost his life when the small British steamer Deptford, 230 feet long and 1,203 tons, was sent to the bottom in 20 minutes, either by a German torpedo from a submarine or by coming in contact with mine, in the North sea at three o'clock yesterday morning at a point off Scarborough. The fifteen other members of the steamer's crew were saved and were landed at South Shields at an early hour this morning.

London, Feb. 25.—A dispatch to Lloyd's Agency from New Haven says the steamer Rio Parana, of London, laden with coal and bound from Tyne to Portoferraio Island of Elba, struck a mine five miles southeast of Beachy Head at three o'clock Wednesday afternoon. The explosion tore a hole in the vessel's starboard side and she filled and sank. The crew of the vessel was rescued by a torpedo boat and landed at New Haven.

London, Feb. 25.—The British steamer, Harpalien, from London for Newport News without cargo, has been torpedoed off Beachy Head. She was struck amidship. Three of the crew, Chinamen, were killed. Two others were seriously scalded. Forty-one members of the crew landed here.

# ALLIED TEUTONIC FORCES SUFFER HEAVY LOSSES IN CARPATHIAN MOUNTAINS

Geneva, Feb. 25 (via Paris).—Continued successes for the Russians in the battle which continues to rage furiously in the Carpathians, are described in dispatches to Swiss newspapers. The Austro-German forces are said to have lost 3,000 more men at Dukla pass, while melting snow at Usok pass revealed the bodies of 2,000 Austrians and Hungarians.

The Austrians are reported to have launched a number of futile

attacks at Dubara, in which they lost heavily. The Russians captured at Grownik a transport wagon with the regimental safe containing \$50,000 crowns (\$20,000).

The Russians claim to have captured an advance post with 600 men at Blasi and showing great activity at Zakliczyn. The dispatches say that additional Russian columns have burst into Marmaros county, in Hungary, bordering on Galicia, Bukovina and Transylvania, capturing convoys.

# AMERICAN RED CROSS DOCTOR DIES AT NISH

Paris, Feb. 25.—Dr. James T. Donnelly, of the American Red Cross Mission, sent to Serbia, died yesterday at Nish, says a dispatch to the Havas Agency from Saloniki. The body will be sent to the United States by the way of Saloniki.

Dr. Donnelly, who was a resident of New York and a graduate of the University at Louisville, went to Serbia late in November with five other doctors and twelve nurses sent out by the American Red Cross. He had been "hospital service" in Louisville and in New York. He held a royal medical degree in Holland.

# RUSSIA DENIES TENTH ARMY ANNIHILATED

Petrograd, Feb. 25.—The general staff of the Russian army has issued a statement concerning the recent occurrence in Russian Poland and the German claims to a sweeping victory which reads as follows:

"Official announcements given out in Berlin to the effect that the Tenth Russian army suffered a severe reverse in its retreat to the rivers Niemien and Bohr are absolutely not correct. The German declarations that the Tenth army has been completely annihilated can be categorically denied.

"As a matter of fact the component parts of two of our corps, the Twentieth and another, finding themselves in an untenable

and dangerous situation as we already have announced, withdrew from their positions at Wierbalen, Russian Poland, with heavy losses.

"As to our other corps these troops after having foiled an attempt of the enemy to surround them are holding today the positions allotted to them and for several days past they have been engaging the enemy.

"Along this entire front our allies are fulfilling successfully the duties assigned them. During the past few days two regiments of the Twenty-ninth division, belonging to the Twentieth corps, advanced from Augustow forest and rallied our men."

# Frank Case Up For Hearing Again Today

Washington, Feb. 25.—The fate of Leo M. Frank, under death sentence for the murder of Mary Phagan, the Atlanta, Ga., factory girl, depends upon the outcome of oral argument of his case which were to begin late today before the supreme court.

Attorneys in Frank's behalf were ready to argue to the court that he should be released on a habeas corpus writ on the ground that mob violence and his absence from the trial court when the

jury's verdict of guilty was returned deprived the court of jurisdiction over him.

Representatives of the state of Georgia were to argue that he had had ample opportunity to raise the point of alleged mob violence and that he had not done so in due time. They also had prepared to argue that waiver by Frank's former attorney of his right to be present when the jury returned its verdict was binding on him.

Sent-a-nels are purely vegetable, candy-coated. Better than calomel, for they leave no nasty after-effects. Get a box from your druggist tonight. 10 doses 10 cents. Mighty handy in case of emergency. # German Subs Will Operate In South

Geneva, (via Paris) Feb. 25.—Three new German submarines arrived by railroad yesterday at Pola (the chief naval station of Austria) according to a telegram to the Tribune, and will soon begin operations, not only in the Adriatic, but in the Mediterranean.

# WANTS LAND FOR "FARM DE GINK"

Washington, Feb. 25.—Jeff Davis, founder of the Hotel De Gink for unemployed in New York, asked President Wilson today to set aside some public land in Arizona for a "farm de Gink" for the use of unemployed and later discussed his project with interior department officials.

"The unemployed are divided into three classes," Davis told the president, "holloos, who are willing to work; tramps, who won't work; and huns who can't work. We are doing our best to earn for the huns who are entitled to assistance from the government. Any man is apt to become a hobo some time. Christopher Columbus was a sea hobo before he was the discoverer of America."

# Protest Against One Day Rent Measure

Columbus, Feb. 25.—Managers of telegraph, telephone and railroad companies protested against passage of the Bohm-Archer measure compelling one day's rest a week for workmen, in a public hearing before the senate and house labor committees today. Representatives of labor interests and philanthropic organizations told the committees such legislation is necessary to protect workmen against imposition by employers.

# OLD-TIME GOLD CURE—DRINK TEA!

Get a small package of Hamburg Breast-Tea, or as the German folks call it, "Hamburger Brust Thee," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teaspoon full at any time. It is the most effective way to break a cold and cure grip, as it opens the pores, relieving congestion. Also loosens the bowels, thus breaking a cold at once.

It is inexpensive and entirely vegetable, therefore harmless.

# 63RD CONGRESS WILL REVIEW DAYTON CASE

Washington, Feb. 25.—No action will be recommended to this congress by the house judiciary sub-committee hearing charges against Federal Judge Dayton of West Virginia. Chairman McEllicuddy began preparing a report today which may serve as the basis of any action the 64th congress decides to take.

# INDIANS WILL BE GIVEN CHANCE TO SURRENDER

Denver, Colorado, Feb. 25.—No further attempt to effect the capture of Two-Ne-Gat, the Pine Indian wanted on a charge of murder, and the members of his band, will be made by United States Marshal Nebeker until Government Indian agents, acting upon instructions from Washington, have offered the fugitives another chance to surrender, according to a dispatch from Bluff, Colo.

Scouts are said to have discovered the Indians about 15 miles northwest of Bluff. Another refusal of the Indians to surrender will be followed, it is stated, by a second attempt by Marshal Nebeker's posse to surround and capture them. Instructions received by the Indian agents yesterday from Washington are said to have urged that every possible effort be made to induce the Pines to surrender before attempting to take them by force.

# PROBE PRICE OF BREAD

Pittsburgh, Feb. 25.—Inquiry into the plans of local bakers to increase the price of bread is being made by the federal department of justice here. The master bakers' association of Western Pennsylvania at a meeting Saturday advanced the price one cent a loaf on all size retailing under ten cents but no date for the advance was fixed.

# ROCKEFELLER BODY FINDS NEW METHOD TO TREAT TETANUS

New York, Feb. 25.—Announcement was made today on behalf of the Rockefeller Institute of the invention of an apparatus and the discovery of a new method of treatment, both designed to reduce the mortality from tetanus among soldiers wounded on European battlefields. Twenty-five apparatuses, it was said, had already been sent to Europe by the institute for use on the battlefield and patents to the invention announced.

# Extra Session Is Given Consideration

Washington, Feb. 25.—Possibilities of an extra session of the senate after March fourth for consideration of treaties and nominations were being discussed today among leaders and while White House officials refused to discuss the subject it was known President Wilson is giving it consideration.

Treaties with Colombia to pay \$25,000,000 for the partition of Panama and with Nicaragua to pay \$3,000,000 for inter-oceanic canal rights and naval bases, undoubtedly will fail of ratification at the present session. The need of action upon them is considered by the administration of great importance. Officials also fear confirmation of the federal trade commission will be delayed.

The president it was said, has not thought of an extra session of congress as a whole. Separate sessions of the senate, however, have been to confirm nominations of cabinet officers.

# WILSON URGES PURCHASE OF THOMAS JEFFERSON'S HOME

Washington, Feb. 25.—President Wilson sent a letter today to Senator Kern and Representative Underwood favoring a passage of the resolution pending in congress for the purchase of Monticello, the home of Thomas Jefferson.

New York, Feb. 25.—The whole sale price of bread, which was recently raised to five cents a loaf, is to be restored to four cents.

### QUITE READY FOR A FRAY.

Stories ignorant, malicious, foolish and unpatriotic are spread abroad over the land as to the unpreparedness of the United States for war. They run all the way from the impotency of our navy and army, through the lack of proper armament to the utter absurdity that there is not enough powder in the arsenals to last for a day.

The actual, simple facts are that in mere numbers of ships, these United States ranks third among the naval powers, being exceeded in this respect only by England and Germany. In modernization of her navy, it is doubtful if she be even surpassed by England, the boasted mistress of the seas. She has 20 battleships of the first class fully the equal, if not the actual superior of anything England has. She has better guns and better gunners than any other nation and the fighting efficiency of her sailors is reckoned superior to any on the water, except the Japanese. Her army, her land forces are not great in number, but amply sufficient to resist invasion and their equipment is the best that genius can invent and skill make. The war stores are amply sufficient for any emergency.

Any statements to the contrary of this are born in wicked ignorance, or out of a foul purpose. On sea and on land America's enemies have always found her ready enough for them and outside of the sensation mongers of the press, the world understands she is just as ready and capable today as she ever was at any other time, when her bugles called to arms.

### THE SELECTION OF DEVANNEY.

And so Michael Devanney wins in a long fight and will hold forth as the United States marshal for the Southern District of Ohio, having been endorsed by Senator Pomerene and nominated by the president upon that recommendation. The selection of Mr. Devanney was made in the face of the opposition of the organization Democrats in Hamilton county, and also in the face of the opposition of hundreds of Democrats in other counties in the district. Why then, was Devanney named, in the face of such opposition? It may be said the answer is equally plain. His nomination came at the request of former Governor Judson Harmon, and it is said to have been the one request that Mr. Harmon had made of Senator Pomerene, in whose election to the senate the former governor had been a most important factor. One may appreciate the dilemma in which Senator Pomerene found himself, political considerations calling for the selection of some one else, and personal gratitude calling for the selection of Mr. Devanney. Senator Pomerene chose the latter, he braved possible political reprisal and made good to the man who had stood by him.

Of course there will be disappointment and temporary rage at the result. But when there has been time for consideration, it will be soon that Senator Pomerene took the course that most any man with red blood in him would have taken.

Politically we think the selection of Mr. Devanney was a serious blunder, and many others of Senator Pomerene's friends think the same. Personally we admire him for the stand he took, all circumstances considered.

### WORKS BOTH WAYS.

In a certain gallant western state fair women is given everything she wants and some things she doesn't want, all for the mere asking. If she chooses to change her mind and nixily set the law aside after she has demanded and got it, why that's her privilege and mere man has not to any her way. She exemplified this natural right the other day. In this certain state she has the privilege to vote and at her direction a law was put upon the statute book, making it a strongly penal offense for any one to employ her over ten consecutive hours. Under the former she asserted the right to officiate as judge and clerk of election, but when it was pointed out to her this would be illegal because judges and clerks had to work for more than ten hours at a stretch, she said such a law as the latter was foolish and she would ignore it. And she did.

Ring around roses, pocket full o' posies. May be that's the game the assembly is playing; instead of law making. Leastwise it is gaily voting itself knives, mirrors, nail cleaners, rads d'visit and bouquets.

### AT PUBLIC EXPENSE.

### ANOTHER VOICE LIFTED.

"It takes more ability to keep out of war than it takes to get into it." Let us show the world we are not any pikers in the ability line." In that injunction the Marion Star, Senator-elect Warren Harding's paper, pays far more of a compliment to a Democrat than is usual with it. Of a truth, it comes as near aligning itself with the frank and manly call of all Americans to rally to the support of President Wilson in his policy of strict neutrality as we take it to be possible with it.

Mr. Wilson has not only arduous, but exceedingly delicate work to perform in keeping this government out of war. In his task he needs not only the encouragement, but the comfort and cheer of the hearty support and co-operation of his people, regardless of party. Certainly, here and there will be found the rat-brain and the pious-head, who will berate him without either rhyme or reason. That doesn't matter, so much for these are the pimple and quail but that annoy. The earnest sympathy, the full good will of the masses are the things that really count. Nobody wants war, least of all the fellows that find glib fault with the Wilson policy. The way not to have it is to stand solidly behind the brave, patient man, who is so devotedly setting himself to the preservation of peace.

### Name Is Rhoden

Officer Campbell reported to headquarters Wednesday night that Rhoden was the correct name of the youth he caught with Miss Marion Saunders, of Ashland, Ky., in the Highland school building vestibule Monday evening. The youth's mother, who lives at No. 1027 Fifth street, assured the officer that her boy would appear in court as soon as he returned from the country. The girl has also been ordered to appear before the mayor.

At the time of his arrest young Rhoden gave the name of Carl Brady.

Feasting On Jelly

"One good turn deserves another" said two pretty girls employed at the Patterson Box Factory, and so after dropping a glass of jelly on the sidewalk in front of the mayor's office Wednesday afternoon, they gave the broken jar and contents to Turnkey Joe Stokley. They did so because the day before Joe had loaned them a "shower stick."

"Dad," the aged flunkie at the city prison has since been feasting on that jelly.

### A KENDALL AVENUE POINT.

There is one point about that resolution of the N. & W. to be considered by council when it takes up the question of future vacation of Kendall avenue—would formal action by council declaring its intention not to oppose the vacation of the street thereby make the city responsible for any and all damage claims that might result from the vacation of the crossing? Would such action relieve the railroad from responsibility and saddle all obligations onto the city? This is an important point and it should be settled definitely before council acts.

Trundle Bed

As I wandered round the home-stand

Many a dear familiar spot

Brought within my recollection

Scenes I'd seemingly forgot

There the orchard, meadow yonder

Here the deep old-fashioned well

With its old moss covered bucket

Sent a thrill no tongue can tell

The house was held by strangers

All remained the same within

Just as when a child I tumbled

Up and down and out and in

To the garret dark ascending

Once a source of childish dread

Peering thro' the misty cob- webs

Lo, I saw my trundle bed

Quick I drew it from the rubbish

Covered it over with dust so long

When beheld I heard in fancy

Strains of one familiar song

Often sung by my dear mother

To me in that trundle bed

Hush, my dear, lie still and slumber

Holy angels guard thy bed

While I listened to the music

Stealing on in gentle strains

I am carried back to childhood

I am now a child again

'Tis the hour of my retiring

At the dusky-evening

Near my trundle bed I'm kneeling

As in yore by mother's side

Hands are on my head so loving

As they were in childhood days

I with weary tones am trying

To repeat the words she says

'Tis a prayer in language simple

As a mother's lips can frame

Father, 'thou who art in heaven

Blessed over, be Thy name

Prayer is over, to my pillow

With a good-night kiss I creep

Scarcely waking while I whisper

'Now I lay me down to sleep'

Then my mother o'er me bending

Prays in earnest words but mild

'Hear my prayer, Oh, Heavenly Father

Bless, Oh, bless, my precious child'

Yet I am but only dreaming

Ne'er I'll be a child again

Many years has that dear mother

In the quiet graveyard lain

But the blessed, holy spirit

Daily hovers o'er my head

Calls my thoughts from earth to heaven

Even from my trundle bed

FOR LITTLE FOLK

THE ADVENTUROUS PELICAN

A pensive Pelican one day was standing by a pond

Profoundly meditating on his lot

He had been standing this way for perhaps an hour or more

And seemed to be asleep—but he was not

Thought he, "I am a water fowl, that fact I won't deny

But even so, I do not understand

Just why I should remain here by this pond all of my life

I think I'll take a journey overland

But when he told his parents of his plan to take this trip

They slapped their wings and cried in great alarm

'You'd better stay right here at home and not be gadding round

For certain as you do you'll come to harm'

Although they warned him thoroughly it did no good at all

The Pelican had quite made up his mind

Said he, "You may as well keep still—I start this afternoon

To see just what adventures I can find

So when they saw that he was bound to go, they hurried round

And put some lunch up for him in a dish

They said, "It's an impression, in a journey overland

The thing you'll miss the most will be your fish

So he set out and traveled till he thought 'twas time for lunch

Said he, "I'll eat right here upon the ground"

But as he was about to take a lovely bite of fish

Just back of him he heard a dreadful sound

The cruel grin and whiskers of the great big Cat were such

The Pelican was almost dead of fright

He didn't wait a minute to exchange the time of day

He simply up and flew with all his might

And before so very long that pensive Pelican reached home

As frightened and as hungry as could be

Said he, "Adventures are all right for those who like them, but

They're a little mite too dangerous for me!"

An alarm from box 154 at 1:53 Thursday afternoon called the East End and Hilltop fire departments to Simpson Bros' foundry in the rear of the John Delabar property on Gallia street and Monroe. **The Markets**  
**NEW YORK STOCK**  
New York, Feb. 25.—Further improvement was recorded by today's stock market, leading issues showing net gains.  
Stocks showed some hesitation at the opening but soon moved upward, many of the representative issues scoring gains of a point or more within the first half hour. United States Steel was readily absorbed at rising quotations and the metal shares also evinced strength with a few specialties, including Mexican Petroleum, advanced materially. The movement was not altogether the one way, however, New Haven and Southern Railway preferred each declining two points to their new minimum of 43. Baltimore and Ohio yielded over a point and Pressed Steel Car pfd. broke six points to 92.  
Balling was encountered on the early rise and prices shaded fractionally in the second hour, with dealings in steadily diminishing volume. Traders expressed disappointment at the continued absence of public interest, the investment inquiry being at low ebb. Foreign news threw no new light on the European situation but less was heard of liquidation from quarter. Numerous active issues repeated their recent minimum prices. Mackay preferred fell 2 points to 63, its minimum, and May Department Stores declined almost nine points to within easy range of its minimum.  
Bonds reflected improvement, with less future selling.  
Trading was at its dullest in the final hour, with fractional reactions in Reading, Steel and Canadian Pacific. The closing was firm.

**CHICAGO GRAIN**  
Chicago, Feb. 25.—Decided strength developed in wheat prices today after a temporary sag at the start. Attempts made by leading firms to buy on the decline disclosed the fact that the pit was almost bare of offerings. A rapid advance ensued. The action of the market was in a measure explained by the suspension of United States government war risk vessel insurance and by later announcements that the writing of such insurance would be resumed but at a double rate. Opening prices here which varied from 1 1/4 to 3 1/4 and 1 cent lower, were followed by a further setback and then a rise to 1 1/2 above last night's level.  
Corn advanced with wheat. Changes, however, were narrow, and trade was confined almost wholly to floor speculators. After opening unchanged to 1/4 lower, the market declined a trifle more and then rose above last night's figures.  
Changes of a liberal demand from exporters made oats firm from the outset. It was difficult, though, to confirm rumors that several round lots had been sold for ocean shipment. Higher prices on hogs tended to lift provisions. Gains in pork were nevertheless not well maintained.  
Renewed bombardment of the forts at the Dardanelles led afterward to a sharp reaction in wheat prices. There was also fresh attention to the possibility of an embargo on the export of wheat. The close was unsettled at 2 1/4 to 3 1/4, under last night.

**FIREMAN! FIREMAN! SAVE MY BARN**  
Lew Hilgen, Gallia street saloonist, was a victim of a fire scare Thursday morning, which disturbed his peace of mind for a short time. Some one telephoned to him that his barn, situated in the rear of his home at Seventh and Findlay streets, was on fire. He rushed to the scene, and was relieved to learn that the alarm was due to the smoke issuing from the interior of the barn, caused from smoking meat.

**WROTE HIS NAME ON MINNEHAHA**  
If the Atlantic line transport Minnehaha, which sailed from New York Thursday for London carrying 10,000 tons of food, for the British Isles, should be sunk by a German submarine it will carry down with it the name of Dr. Carl Braunlin of this city. The young local physician made a trip across the big pond on the Minnehaha in 1901 as a cattle tender and wrote his name on the forecastle of the ship. He was in college at the time and took the trip as an adventure.  
Dr. Braunlin has been asked by The Times to write a story of this trip which will appear soon.

**Say Chickens And  
Boys Ruin Lawns**

The mayor Thursday afternoon referred the following self-explanatory communication to the chief of police:

To the Chief of Police:  
The office has just received from a very prominent citizen a letter relative to existing conditions, to-wit:

"Mayor Adam Frick,

Portsmouth, Ohio.  
Dear Sir:—This is not a 'complaint' but a statement of facts. For four years, since my return to Portsmouth, I have worked constantly to make my grounds pretty, attractive and orderly.

This spring I feel that I must give up the struggle unless I can obtain relief from the incursion of chickens and the depredations of boys. I counted thirty-two chickens in my grounds yesterday (none of them mine, as I do not keep chickens) and the boys not only destroy about all that can be destroyed but are very insolent as well. Some of them are almost grown and the language they use when playing ball, etc., would cause arrest of a man.

I certainly do not wish my publicity but wish to ask you privately if you or Chief McCarty can help in some manner? The boys cannot be confined in wire 'runs' (unfortunately) but I should think the owners of the chickens might be forced to confine their flock.

Respectfully submitted,  
ADAM FRICK, Mayor.

**Complain  
Of Water**

The mayor has again served notice on Oscar Boyer to put a stop to water running from his property occupied by Saloonkeeper Charles Zeigler on Chillicothe street into the adjacent alley. The city has spent \$15 in the past few weeks repairing the alley and the department says it does not expect to again notify Mr. Boyer to abate the alleged nuisance.

Refused Admission.  
Carrie White, colored, of No. 1009 Eleventh street, was refused admission to Hempstead hospital for a surgical operation Thursday until she is first warranted over to the county authorities as it was discovered she is a non-resident. She came here from Columbus ten months ago.

**WILL MAKE  
ADDRESS**

Mrs. Lila Johnson will address the Woman's Federation of Clubs on the subject of "Rescue Work" at a meeting of that organization Friday afternoon.

Mr. and Mrs. John T. Deaman, of Cleveland, are guests of Portsmouth friends and relatives.

**Never Pull a Tooth  
Till All Else Fails**

In every gathering of dentists, the prominent theme is that a tooth should never be extracted until all else fails. Some dentists work over a refractory tooth for months, using every means possible to save it. "Once out, always out," is a motto but true saying. Store teeth wisdom look well, are a continual source of dissatisfaction. The sockets of lost teeth become atrophied and cause other teeth to feel the loss. This causes a strain of teeth and mouth troubles. When lost, gritty, tartar substances collect around the gums and teeth it is time to have them dissolved and removed—also surely as the gum tissue will follow sore teeth, bleeding, receding gums, loose teeth, decay.

All these can be corrected if you will get from your dentist about four ounces of fluid organ and use morning, noon and night, simply holding a teaspoonful in the mouth a minute or so. The gritty substances will dissolve, washed out, loosened teeth become firm and strong in the gums, receding gums will begin to be normal. The dirty yellow spots, black on the enamel soon peel off. Sore teeth, pyorrhea, facial tooth disfigurement, will be prevented.

**WIFE MAKES  
COMPLAINT**

Mrs. Stout said that she married Stout in December and he has just left her, going to the John Weeks home on Chillicothe street to board, after placing his two children by a former marriage with relatives in the country. He is employed at the Portsmouth Paving Brick Company's plant.

Every skipped hill is a loss—in fertilizer, labor and land—and every double waste of expensive seed and marketable potatoes. It means \$10 to \$20 an acre extra profit from the average field if all those hills are planted. It is this margin that more than pays for an

**Galion Is The Most  
Godless Town, Says  
Former Manly Pastor**

Galion, O., Feb. 25.—"Galion is the most Godless town I was ever in. The church members need no awakening in order that they may live lives that will not cause others to say that the church is full of hypocrites."

So spoke Rev. L. I. Hart, Tuesday night at a revival service to his congregation in the First M. E. church here. His words have stirred the city to its depths.

The patronage of popular amusements by church members was bitterly arraigned by the pastor, who said:

"You can kick me out of the back door if you want to, but I am going to have my say. No letters like some that have been received by other preachers will make me sit down and cry for attacking the worldliness of the churches as did those who received them. I will send them from the pulpit, and deal with the writer accordingly. What I think and say others have thought but have not dared to say."

He also took a rap at the church choir because it had not attended the special services regularly.

Rev. Hart was formerly pastor of Manly church this city.

**Condemnation Suit  
Is Now Being Heard**

Hearing of evidence in the condemnation suit of the Chesapeake and Ohio Northern Railroad Company against David Bahner, of Porter township, was begun in probate court Thursday morning before Judge Buntly and jury. Each side presented witnesses who testified as to their opinion of the worth of the

strip which the railroad company desires to acquire for right-of-way purposes.

Bannon and Bannon represent the railroad company, and Miller, Miller and Seal the defendant. The case of the C. & O. against George Bahner, which is similar to the suit being heard Thursday, will begin Friday morning.

**GERMAN-AMERICANS FOR AMERICA FIRST**

The two great German-American leaders in this country are Congressman Bartholdt of Missouri, and Herman Ridder, editor of the New York Staats-Zeitung. Both declare that in case of trouble with Germany the German-Americans would be a unit for their adopted land.

Says Editor Ridder: "The man in Germany or in England who thinks for a moment that the American people—and I mean by this all the people in the United States—would not present a firm and united front to a foreign foe is lamentably mistaken."

Says Congressman Bartholdt: "The Germans of this country are for America against England; for America against Germany; for America against the world. They will not waver for one second in their allegiance to their adopted land."

**War Now Helping  
Steel Industries**

Cleveland, O., Feb. 25.—The Iron Trade Review today says: "The tremendous demand for war materials is responsible for the placing of many orders for machine tools and that an inquiry for 50,000 howitzer shells involving 20,000 tons of pressed steel is pending in the Pittsburgh district."

Manufacturers of cast iron pipe in Philadelphia territory have bought large tonnages of pig iron and the market is more active in Cincinnati, Chicago and some other centers. In finished materials the price schedule is being maintained and demand is fair.

**TOBACCO MEN CAN'T  
BUY IN AMSTERDAM**

New York, Feb. 25.—A committee of tobacco manufacturers who usually go to Amsterdam every spring to buy at auction their supplies of humatra tobacco for six months recently sent a letter to the department of state telling of their fears to travel through the war zone and intimating that they would be glad if the authorities would send a battleship to convey the vessel on which most of them would sail for Holland.

An answer from Counsellor Lansing of the state department made public today by the Leaf Tobacco board of trade:

"You are informed that the department must for the present, in view of the disturbed condition of affairs in Europe, leave it to each person contemplating a visit there to decide for himself whether or not it would be wiser to postpone his visit until affairs therein shall have resumed their normal state."

As they pay import duties of almost \$10,000,000 the manufacturers, it is stated, expected a different reply to their request for a convoy.

## Blames Husband For Baby's Death; Seeks A Legal Separation

Mildred B. Seahill of this city, formerly Mildred B. Morris, entered suit for divorce, through her attorney, George W. Sheppard, in common pleas court Thursday morning on Edward F. Seahill, a former piano player in a local theatre, alleging charges of extreme cruelty, adultery and habitual drunkenness. Seahill is said to be located in Cincinnati at present, while his wife resides with her parents in this city.

The wife complains that her husband compelled her to move from place to place, the money for which, she claims, was borrowed from her parents at his request. Upon one occasion, she claims that he sent for her to come to Cincinnati, and then failed to meet her at the depot, leaving her among strangers in a strange city. She further claims that he later moved her into the slum districts of that city, where their child encountered disease that resulted in its death.

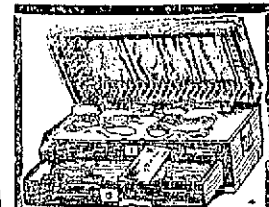

Adultery with two young women in distant states is also charged in the petition, as well as habitual drunkenness. It is reported that on last Labor Day when her parents paid them a visit they found her husband in bed in an intoxicated condition, with a whiskey bottle at his side, and with nothing to eat in the house. They came to her rescue and supplied food for her, she concludes.

## Families In Row

The mayor for the past few days has given patient ear to the grievances of the O. Curtis Milstead and Harry Wheeler families, of Seventeenth street. The mayor, as a result, directed the chief of police Thursday to call on Mrs. Milstead and have her boys refrain from making insulting remarks about Mrs. Wheeler and at the same time advised Mr. Wheeler that if he and family moved to Sciotoville, as they were considering, it would probably be the best solution of the trouble.

## NORTH END WILL HAVE TO WORRY ALONG MINUS THE GAY FLORIDA KID

C. S. Smith, the negro character who sails under the euphonious title of "Florida Kid," was adjudged a detriment to the social conditions of the North End by the mayor Thursday and ordered separated from the city for a period of 60 days.

The mayor fined the Kid \$25 and costs, and sentenced him to two months in the workhouse and he will be taken to Cincinnati Friday morning, with Harvey Powell, a colored youth who has developed a penchant for getting into trouble and who was given a choice of paying a \$10 fine or spending 30 days in the workhouse.

Evidence against Smith showed he had entered Sam Johnson's home in Blackberry alley in an intoxicated condition Wednesday afternoon and when ordered out began vilifying Sam. He was ejected, then struck Johnson in the face with a brick. A desperate fight followed and it required the combined efforts of several men besides Officer Allen to pull Johnson from off the other negro.

After reaching police headquarters Smith attempted to assault Johnson while the latter was sitting on a chair and officers with difficulty held him away from the other man. Smith was arrested only a few days before for parading around with Bess Hurd. He and "Pop" Smith are rivals for her affections and police have all along feared that the two would sooner or later engage in deadly combat over her.

George Raymer has just returned home from the Ohio penitentiary at Columbus where he did time for robbing Widdie's store on the Chillicothe pike. Raymer was sentenced to ten years in the state prison by Judge A. Z. Blair but by good behavior cut it down to 5 years and 27 days. He also claims to have saved \$300 during the time he

## WOMEN IN THEIR FORTIES NEED SOME BRACING AID

Somewhere between the ages of forty and fifty years, every woman's system has to undergo important functional changes that are seldom understood and rarely prepared for. Women usually approach this critical period with little or no actual knowledge of its tremendous bearing on their future health and happiness. Few realize that during this changing time they are subject to many physical and mental trials that will tax their nerves and strength to the breaking point and many easily leave them disheartened and nervous wrecks.

To the woman whose nervous system is already weakened, this period is doubly dangerous, as in this condition she is more easily affected by morbid growths and latent disorders which her now overtaxed organs are unable to throw off.

Women during this changing age need and must have some quick acting and harmless remedy that takes into their systems will strengthen and invigorate their overworked nerve cells, and help them to stand up under the trying stimuli. After endless experiments such a remedy has been found in Margo, a skillfully compounded combination of six pure and harmless elements that have an immediate though powerful effect on the entire nervous system. Margo supplies to the nerve cells the very elements lacking and its effect is almost instantaneous.

If your nerves are worn out, you have lost confidence, feel blue, are despondent and all tired out, Margo will help you. One Margo and Stretch and other leading druggists in your vicinity sell Margo with the positive guarantee that it must produce the beneficial results expected or the money paid for it will be refunded.

Instead of preaching services last night there was held an old fashioned testimony meeting, and much enthusiasm for the Master's work was created.

Firework was said last night to the Rev. W. V. Harter, of Mowrytown, who has been assisting Rev. Hopper in the revival. He left today for his home.

## What Thin Folks Should Do To Gain Weight

Physician's Advice For Thin, Underdeveloped Men and Women

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised diet-makers, food-tables, physical culture, and rabon cream, realize themselves to life-long slenderness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called Sargol. Sargol, strengthening, fat-producing elements of unknown merit have been combined in this perfect preparation, which is endorsed by eminent physicians and used by prominent people everywhere. It is absolutely harmless, inexpensive and entirely safe.

A month's systematic use of Sargol produces flesh and strength by correcting faults of digestion and by supplying highly concentrated fats to the blood. Increased nourishment is obtained from the blood, and the additional fact that this people need are provided. Fisher and Stueck and other leading druggists supply Sargol and say there is a large demand for it.

Use this new preparation has given splendid results in every case and, therefore, it should not be used by nervous people unless they wish to gain at least ten pounds of flesh.

## Recovers Watch

The fine gold watch which John J. Smith, a foreman at the Harrison-Walker brick plant advertised in the Times as lost and offering a \$10 reward for its return has been recovered by him.

Mr. Smith had felt positive he lost the watch somewhere about the brick plant and though he promptly paid ten dollars to Isam asked Chief McCarthy to investigate his story of the finding.

## MAYOR ACTS AS AN AID TO CUPID

A wife's over-indulgence for motion pictures and her persistence in having a woman companion who is objectionable to the husband is believed by the mayor to be at the bottom of the troubles of the Simpson family, of No. 733 Third street.

Mrs. Simpson had planned to leave her husband and go back to her former home in Turkey Creek because her husband had slapped her. The mayor refused to accept her version of the trouble until he had heard from the husband, and for the sake of their handsome little children advised her to exercise caution, rather than act with any undue haste. Simpson, he learned, was a hard-working young man and was doing the best he could towards the support of his family in the present depressed business conditions. The young couple finally succeeded in patching up their differences, she agreeing to limit herself on picture shows, and he to "eat" some of his male associates.

## MAYOR AFTER SMOKE

The mayor has called the attention of Dr. E. C. ## Miss Dolly Wise

She is here to answer any and all questions concerning love, matrimony, troubles, woes, ailments, etc. Inquiries should be addressed to Miss Dolly Wise, care The Daily Times, Portsmouth, O. Office Phone 60. Residence A-490.

Dear Miss Wise—Having read a good many letters written to you giving advice what a married man should do, I am coming to their rescue. Being a married man myself will give some advice which come by experience. I work six days in the week, come home from work, eat my supper, read the paper, play with the children awhile and then go to bed. Never think of going out of evenings unless I have some business that must be attended to. But on a Saturday evening would like to go out for a little while to meet some of my men friends to have a little chat, but my wife seems to think I should stay at home. I don't understand why. She knows I don't drink any or go in bad company. Have always been true to her as any married man should be to his wife. She knows she has the liberty to go out any day or calling on her friends of evenings, she knows I am stuck on paying my bills when my wages are drawn, and know where all my money goes. There are hundreds of married women in this town, (and other places also) who expect their husbands to work hard every day, while they run the streets, go to the shows and spend their money for fine clothes, expecting

their husbands to stay at home every night unless they go along. Before a man gets married he has formed a habit of going out when he pleases without strict orders where he should not go and when he should be back home. When he marries it's hard for him to give up all this liberty and to be tied to his wife's apron string all the time. There is not one man out of a hundred, if tied down this way will think of married life and home as he should. He will grow tired of it and will only wish he were a single man again. To be sure there are a great many men not worthy of a wife, some of them if given the liberty of an inch will take a mile, but when a man loves his family and home his wife should not feel any jealousy in letting him out of her sight some evening to go down town. Every man likes to get out once in awhile to mingle with other men. I will say to the wife, don't be afraid to trust your husband out of your sight once in a while. If you are not worthy of a husband. Now Miss Wise I am glad to know there is one sensible woman that will hold up for a man's rights. My best wishes for your success and to the lucky man that captures such a sensible woman.

A READER.

Dear Dolly—Do you think it is right that we have to entertain our company in the kitchen?

TWO READERS.  
It's perfectly all right if you haven't any other place to entertain them.

Miss Dolly Wise—Will you please tell me why it is on a rainy day that most women walk across the street on their heels and the men walk on their toes? I noticed that the other night.

T. B.  
We walk on our heels so we won't get our shoes muddy. I don't know why men walk on their toes unless they want to keep their heels clean.

### TO REMOVE DANDRUFF

Get a 25-cent bottle of Dandruff at any drug store, pour a little into your hand and rub well into the scalp with the finger tips. By morning most, if not all, of this awful scurf will have disappeared. Two or three applications will destroy every bit of dandruff, stop scalp itching and falling hair.

How to Have the Best Cough Remedy and Save 42¢ by Making It at Home

Cough medicines, as a rule contain a large quantity of plain syrup. A pint of granulated sugar with 32 pint of warm water, stirred for 2 minutes, gives you as good syrup as money can buy.

Then get from your druggist 2 1/2 ounces Pinex (50 cents worth), pour into a pint bottle and fill the bottle with sugar syrup. This gives you, at a cost of only 54 cents, a full pint of really better cough syrup than you could buy ready made for \$1.00—no over selling of nearly 50¢. Put directions with Pinex. It keeps perfectly and tastes good.

It takes hold of the usual cough or croup cold at once and cures it in 24 hours. Splendid for whooping cough, bronchitis and winter coughs.

It's truly astonishing how quickly it loosens the dry, hoarse or tight cough and heals and soothes the inflamed membranes in the case of a painful cough. It also stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Stinner Wallace, an N. & W. fireman living at 913, Offshore street, and Miss Vesta Titus, a popular young stenographer of Vanceburg, Ky., were married last Tuesday evening at Vanceburg. They came direct to Portsmouth after the marriage and went to the home of the bridegroom's mother, Mrs. Mary Wallace, of 913, Offshore street, with whom they will make their home for the present. Concerning the marriage, the Vanceburg Sun said:

"Miss Vesta Titus, the charming stenographer of Attorney J. P. Strother, and Stinner Wallace, of Portsmouth, were married Tuesday evening by Rev. E. B. Hill. As Miss Titus was too young to secure a license, Mr. Strother was appointed her guardian and gave his consent to her marriage. The marriage was rather sudden, and it is supposed that Mr. Wallace, who was very much in love before Miss Titus came to Vanceburg a few weeks ago, realized the truth of the old maxim that 'absence makes the heart grow fonder.' Miss Titus made many friends 'while here and The Sun joins with them in wishing the young couple much joy."

## ENTERTAINMENT AT HIGH SCHOOL WAS PLEASING

Music-lovers in the city were given a rare treat Wednesday evening when the Schumann Quintet, a splendid musical organization, rendered one of their delightful programs at the high school. Every seat was occupied and a number of extra chairs were used.

Every member of the Schumann Quintet is an artist. Carl A. Lambert, organizer and manager of the Quintet, kept the audience in a good humor throughout the entire program by his witty introductory remarks.

The company is composed of Mr. Lambert, violinist; Mrs. Lambert pianist; N. Zedeler, cellist; Mrs. Zedeler, organist, and Norman Weller, violinist.

"The closing number was selections from 'Faust,' and they were effectively rendered. The audience declared the number to be one of the best of the High School Lecture Course. The company left Thursday for Marysville.

The Women of the World Choose

Gossard CORSETS

They Lace in Front

And the reason for their choice is completely described in the sentences which follow:

"Figure improvement means health, and health always means beauty. The Gossard Corset which laces in front assures an immediate figure improvement with its attendant joys—health, beauty and comfort."

At this store, corsets receive more than the usual attention because our experience proves to us that corsets are the foundation of style. They help make the suit, gown and dress. At this time, when many women are questioning much of the style vogue published, we believe the

5th Semi-Annual Proclamation of Authoritative Corset Styles for Spring 1915

issued by The H. W. Gossard Co. through this store is of the most vital interest. During the next two weeks the new Spring models will be shown in our corset department, and we promise to corset you in the model, material and design of your liking at \$2.00, \$3.50, \$5.00, up to \$25.00. A fitting or visit to our department does not obligate you. It's without cost to you.

## RID STOMACH OF GASES, SOURNESS, AND INDIGESTION

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diaphepsin is noted for its speed in giving relief; its laxativeness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eruptions of acid and undigested food—remember—as soon as Pape's Diaphepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

## Pittsburgh Packet Service To Be Resumed Saturday

Through packet service between Cincinnati and Pittsburgh which has been suspended for some months past will be resumed Saturday when the steamer city of Parkersburg will be started out from the former city on her first trip of the season.

The Parkersburg, which has been tied up at the Broadway wharf in Cincinnati since the middle of December will leave for Pittsburgh in charge of Captain Hutchinson and is due to pass here Sunday morning at 8 o'clock.

Advices from Pittsburgh are also to the effect that overtures have been made to Commodore John W. Hubbard, president of the Ohio and Mississippi Navigation company for a limited char-

ter on the packets. Queen City and the Parkersburg to be operated in the Pittsburgh and Cincinnati trade by rivermen, who believe a two packet system between the two terminals will show "good return" on the investment. It is said Commodore Hubbard is considering the charter proposal and will announce his decision before the close of the week. The proposed lessees are said to be men who have a wide experience in operating steamboats.

Should the two packet system in the Cincinnati-Pittsburgh trade be resumed and with the Green Line establishing a daily packet service in the Portsmouth-Cincinnati trade beginning March 1 the river should again take on an old time appearance.

## Officers Nominated By The Local Elks

At a well attended meeting held Wednesday evening the Portsmouth Lodge of B. P. O. Elks held its annual nomination of officers with the following results: Exalted Ruler, Stanley McCall; Leading Knight, Thos. Brushard; Loyal Knight, Paul Davidson; Lecturing Knight, Anselm Skelton; Secretary, Clarence Nodder; Treasurer, Geo. E. Krieger; and Tyler, Thos. Nichols. Orin B. Oakes, whose office as exalted ruler soon expires, was elected delegate to the next grand lodge meeting and Wm. J. Meyer, as alternate.

A set of new by-laws drafted by the board of governors was adopted. Much regret was expressed over the serious illness of Dr. S. P. Fetter.

Paul Esselborn reported that the committee named to look into the advisability of securing the second floor of the Play House building for lodge purposes would get in communication with J. D. York, who is in California, and would probably have something definite to report about a move of this character at the next meeting.

## Got Cold And Seeks Damages

Three thousand dollars damages are asked from the United Fuel and Gas Company by George. Schafer, of Sciotoville, in a suit entered in common pleas court Wednesday. Schafer claims that he has suffered in that amount from exposure while in the company's employ, it being alleged that he contracted a chill which afterward developed into pneumonia and pleurisy of the left lung.

In his petition, Schafer alleges that on November 9, 1913, he was employed with Lee Little, at the New Boston station of the company, which, he claims, was a tumble-down building, poorly heated and uninhabitable. No further claims

that the day mentioned was exceedingly cold and that the wind blow through the cracks in the building, chilling him through, and bringing about illness which kept him laid up in his bed for several weeks.

Negligence of the company is charged, Schafer claiming that he had advised the officials of the building of the condition of the building, which they had promised to remedy, a promise which they never kept.

Among other things, he says that he incurred a doctor bill of \$40; \$25 bill for drugs, and that he has been physically incapacitated for work during the winter of 1914-1915.

## A WONDER WORKER

For over two hundred years a famous Dutch medicine, the National Remedy of Holland, has been a standard for disease of the kidneys and bladder. Gout, rheumatism, uric acid, lead poisoning, gravel, stone in the bladder, diseases of organs connected with the urinary tract, all find an irresistible enemy in GOLD MEDAL Haarlem Oil Capsules. Made from natural, healing oils and herbs, this dependable remedy conquers the poisons in your system, where all the "new discoveries" and patent "cure-alls" fail absolutely.

GOLD MEDAL Haarlem Oil Capsules are a standard medical preparation. They are imported fresh every month from Holland by the Genuine Haarlem Oil Mfg. Co., 194 Water St., New York. Each shipment is carefully examined and passed upon by United States Government chemists before being admitted into the country. Therefore you can be absolutely sure they are safe and that no habit-producing drugs are in them. If they were harmful, you could not get them at any price. They would not be allowed into this country. Remember these are the only genuine Haarlem Oil Capsules imported from the mother country. Therefore insist on your druggist giving you GOLD MEDAL—otherwise you may get an imitation. Price 25c, 50c and \$1.00. Money refunded if they do not help you. Look for the name GOLD MEDAL on every box.

## AMPUTATED LIMB

Charles Hunter, who a week ago was struck by a crane while employed in the Whitaker-Glessner Company's steel plant in New Boston, and who suffered a compound fracture of each leg, had his right leg amputated just above the knee Wednesday night. Hunter withstood the ordeal admirably and his general condition was reported more favorable at the Hempstead hospital Thursday. Dr. Harry Schirrmann, W. W. Smith, William Schaefer and William Seitz amputated the unfortunate man's leg. The left leg, in addition to being broken in two places, was badly mangled.

Hunter is a married man and has a wife and four children living at Gallia and Young streets.

## Have You Catarrh?

Is nasal breathing impaired? Does your voice get husky or your throat clogged? Modern science proves that catarrh is a symptom of poor health; when the system is weakened it is quickly invaded by the flow of secretion from the mucous membrane, and it is useless to treat the spot with snuffs and vapors because they only irritate the inflamed and delicate tissues.

The best physicians today emphasize that you should build your general health with the oil food in Scott's Emulsion, which contains glycerine to soothe and heal, hypophosphites to strengthen the nerves, and cod liver oil to create rich blood, build strength and vigor. Its nourishing powers will aid nutrition and assimilation and assist nature to check the inflammation and heal the sensitive membrane which are affected.

Scott's Emulsion not only relieves catarrh, but builds you up at the same time. Every druggist has it.

## To Urge Passage Of Car Limit Bill

The mayor is co-operating with the local Brotherhood of Railway Conductors in urging favorable action on the bill jointly introduced in the house and senate at Columbus limiting the car length of freight trains.

Writing to Senator W. D. Tremper the mayor gives as a reason why the measure should be favorably considered, aside from any reason that may be advocated by railway employees, the conditions created in Portsmouth by long trains and which is also true in most other cities. N. & W. trains with one hundred cars enter Portsmouth from the north and extend over several blocks as their

tracks angle through the city. A stop is made for the B. & O. S. W. crossing and in starting such long trains oftentimes a coupling is broken, requiring them to back in to re-assemble the train and meanwhile another crossing is covered, then the train, again ready, moves in a forward direction, covering the Walker and Offshore street crossings and blocking all street traffic and dividing the city which is particularly dangerous in times of fire. If these trains were limited to about forty cars in length and require to pass at about ten minute intervals the most of this condition would be eliminated.

## MR. SHUMP ALSO FAVORS BUILDING OF FLOOD WALL

J. E. Shump is in hearty accord with his fellow city councilmen in pushing the proposed extension of the city flood wall.

"I am in favor of going right ahead with the improvement if the necessary money can be provided,

and I guess it can," said Mr. Shump. He thought that it might be necessary to submit the proposition to a vote of the people, but believed the citizens would vote for the bond issue. "Yes, I'm in favor of going ahead and doing what we can," added Mr. Shump.

## REJECTING CHRIST MAKES GOD A LIAR

—SAYS REV. ALBERT L. MARTING

Before an appreciative audience Rev. Albert L. Marting preached on "The Sway of Sin" at the Fourth Street M. E. church last evening. The basis of the discourse was Romans 8, 22-23: "There is no difference; for all have sinned and come short of the glory of God"; also I John, 1, 3 and 10: "If we say that we have no sin we deceive ourselves and the truth is not in us. If we say that we have not sinned, we make Him a liar, and His word is not in us."

A glance into a newspaper, into the world about us, into our homes, soon proves to us that there is sin in the world. However it may have gotten there, the fact of sin is

evident. Coming closer home, a little introspection proves its existence in our own lives. If you claim immunity from sin, you know better, and you had better get off of your Pharisee perch before you fall off, for you will take an awful tumble when you do. Not only must we tell ourselves that sin in some form lurks within us, but God's word tells us plainly that "all have sinned." Yet some will deny. But if we deny sin, we first of all deceive ourselves. Now get that: You are not self-deceived against better intentions, but you are deliberately deceiving yourself. You are "pulling the wool" over your own eyes. And when you do that, you make a hypocrite out of yourself; you call black white, "and the truth is not in us." You can't trust yourself, nor can anyone else trust you. You have deliberately chosen to blind yourself to the fact. There you make God a liar. Oh, no, you don't call Him one, you know better, but you do worse—you make Him one. You can call a man a liar, when he is not, but when you make him a liar, you show him up with "the angels." Your claim to no sin, then, proves God a liar. But you say: "I never claimed immunity from sin." No, but what do you do? You refuse God's proffered remedy for sin, which means you do not need it, which, being interpreted, is: "I have not sinned; God would not offer a remedy for sin, if there were no sin to cure. Therefore your rejection of Christ makes God a liar."

If now you will come down to the common level, where "there is no difference, for all have sinned," there is a chance for you. God will break the sway of sin in your life, if you will admit that it is there, and ask Him to remove it. Will you do it?

One penitent responded to the call. A number of others were deeply convicted and we hope and pray will soon become willing to accept Jesus Christ. Everyone is earnestly praying and working, and greater things are expected. The male quartet sang beautiful little selection, "Only Ask Him." The congregational singing was spirited, as well.

Services tonight at 7:15. The subject will be "The Consequences." The quartet will again sing.

"Yaller" Wants Out.

The mayor is in receipt of a letter from "Yaller" Latell pleading for his release from the Cincinnati workhouse. The mayor is disposed, however, to allow "Yaller" stay his full 60-day limit. He was sentenced to the work for stealing a runabout belonging to the city and selling it to Blacksmith Judson Rainey.

Deal About Closed.

The price has been agreed upon and the deal practically closed whereby the newly incorporated Home Lumber Company will become owners of the Billy Miller estate at Gay and Gallia streets.

The incorporators of the company organized Wednesday evening by electing Dr. J. H. Gill, president, Frank Russell, vice-president and general manager, and Jos. L. Mendall, secretary and treasurer. The new company expects to completely remodel the Miller room.

### Ashland High Plays Here Friday Night

The Portsmouth high school basketball team are practicing hard for Friday night's battle with Ashland high. The Ashland five administered a stinging defeat to the locals on the opening day of the schedule by sending P. H. S. home with a score of 10 to 10, the worst defeat of the three this season. "The Ashland five will be made to remember that battle in Friday night's return game," says Captain Swishelmin. "The locals will be on their own floor. Next in Huntington Ashland is Portsmouth's next hardest enemy to beat,

### WILL START DOOIN

Charley Dooin will catch the opening game of the season at Redland Field on April 14. This is the first definite announcement made by Manager Herzog as to his battery plans for the first championship series. Of course he has not as yet picked his pitcher for the first game, but he has determined to work Dooin behind the bat, not only in the opener, but in many more contests during the early season. The Red leader is going to prime Dooin during the work at the training camp for much early service behind the bat in regular games, believing that he will help out the younger pitchers on the staff and assist in improving the general defensive strength of the team.

### Well Come On With It

Chicago, Feb. 25.—It was said at Federal League headquarters today that P. T. Powers, who recently purchased the Kansas City franchise, would announce in New York tomorrow the city in which the team would play.

### Ready for Big Fight

Milwaukee, Wis., Feb. 25.—Freddie Welsh, world's lightweight champion and Charlie White, Chicago aspirant to the title are ready for their ten round decision contest in Milwaukee tonight. While no decisions are permitted under the Wisconsin law, should White knock out his opponent, the title would revert to the Chicago boy. When the two met here several months ago Welsh had the advantage of several pounds in weight and sportswriters awarded him the decision.

## Duke Of Portland Quits Turf; Racing Friends Too Snobbish

London, Feb. 25.—The Duke of Portland, who for thirty years has been one of the leading figures on the English turf, has caused to be cancelled all racing entries for the Epsom track, including the Derby for both 1915 and 1916, because of the refusal of the Epsom association to do without the use of its club house for a few days.

The building is now being used as a military hospital, and the Epsom association is shortly to hold its regular meeting. When the association permitted the occupancy of its building as a hospital it stipulated that the house be returned to it for its coming conferences.

In a letter of protest to the club committee the Duke wrote: "Surely for one year the few followers of racing should be only too glad to forego their luncheons if in so doing it is unnecessary to disturb British soldiers who have been wounded for the sake of their country."

The committee yielded partially and said they would require only one floor of the building during race week. But this did not satisfy the Duke of Portland and he caused the withdrawal of all entries.

## LITTLE FOX TERRIER WINS DOGDOM HONORS

New York, Feb. 25.—Matford, a wire-haired fox terrier, at the Westminster Kennel club show yesterday at Madison Square Garden won the highest honors of Dogdom in this country by being awarded the ribbon for the best dog in the show. This little terrier, whose first glimpse of life

was from the obscurity of an English barnyard, from which she was taken after the payment of the small sum of \$10, carried to victory the kennel of her owner against the competition of the most famous champions of all breeds. Matford is owned by George W. Quintard.

## GOVERNMENT TO PROBE ALLEGED JUNK TRUST

Los Angeles, Calif., Feb. 25.—Elias M. Blumfeld, special agent of the department of justice here, has received instructions from the department at Washington to begin an investigation in various cities throughout the country of the so-called "junk trust." The investigation, it is understood, will deal with the operations of the Great West-

ern Smelting and Refining company, a Maine corporation, its allied subsidiary companies, and with the history of corporations bought by or merged with the Western company. The investigation will seek to find whether these companies are in control of trade in glass, bottles, rubber and similar goods in this country.

## SENATE FIGHTS OVER SEED DISTRIBUTION

Washington, Feb. 25.—With only six working days remaining of the present session of congress, prospects of enacting any other legislation aside from the appropriation bills before adjournment was regarded by Senate Democratic leaders today as very slim and they were concentrating practically all their efforts towards the passage of the supply measure.

An indication of the intention of administration leaders to "speed up" work on the appropriation bills is seen in the fact that the senate after passing the postoffice appropriation bill yesterday worked fur into the night on the agricultural appropriation bill enrolling about \$23,000,000. Except for a few disputed items—including an appropriation of \$400,000 for distribution of seeds which was stricken out by the senate committee—consideration of the measure has been completed. Senator Martine was to fight for restoration of the provision.

## ABOLISH SPECIAL DEFENSE BOARDS

Washington, Feb. 25.—Five special defense boards are abolished by war department orders promulgated today. The work which these special boards previously have done will hereafter be directed by a general board of review, composed of from five to seven officers on detail in Washington, who will from time to time make recommendations re-

garding the country's defenses. The special boards which have been ordered dissolved are the National Land Defense board, which has been charged with looking to the proper protection of the land approaches of coast defenses, the Cape Henry defense board, the Panama Fortification board and the Philippine

## DOING IT NOW

Wallace Carroll, who came to this city last January and accepted employment in the plant of the Whittaker-Glessner company, is going to "Do It Now." He has purchased a lot on the Hilltop and will soon build a seven room home on it.

The "Do It Now" call has been answered out in South Webster. Dr. A. G. Stevens has awarded a contract to Ed Brehmer of this city to repaint and redecorate the interior of his home in that village.

A landmark, a big elm tree, gave way to progression Thursday when it was cut down on Seventh street near Brown, where it had stood for many years. Morle Duduit has joined the Do it Now club and is erecting two six room houses on Seventh street, and the tree was in the way.

## Wants To Return To His Old Home

County Treasurer M. J. Caldwell received a letter Thursday from the Chattanooga, Tenn., authorities, making inquiries concerning S. V. Arnold, a Union soldier of the Civil War now in that city, who claims to own property in this county. The letter says that Arnold claims to have come to Chattanooga in 1913 during the National G. A. R. Encampment, and was later induced to make his home with his son, who resides there. A few days ago the son made arrangements to send him to an infirmary, and the father is now trying to get back to his old home.

Diligent search among the records failed to reveal the name of S. V. Arnold as a property owner of this county, and the Tennessee officials will be so notified. Arnold claims to have been a member of the 26th O. V. I., and further states that Reuben Rose was the captain of his company.

### IMPORTANT TO ALL WOMEN READERS OF THIS PAPER

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased. You may suffer a great deal with pain in the back, head, or down feelings, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any one so. But hundreds of women claim that Dr. Kline's Swamp-root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions. A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women. Many send for a sample bottle to see what Swamp-root, the great kidney, liver and bladder remedy, will do for them. Every reader of this paper who has not already tried it, by enclosing ten cents to Dr. Kline & Co., Binghamton, N. Y., may receive sample size bottle by Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

# MRS. SAMUEL HORCHOW'S BROTHER KILLED IN BATTLE

## GALLANT OFFICER FALLS NEAR LODZ

That her youngest brother, Max Brilliant, aged 36 years, a lieutenant in the Austrian army had been killed in battle before Lodz in Russian Poland, October 25, was the distressing news received by Mrs. Samuel Horchow, of this city, Thursday morning.

The shocking information was imparted to Mrs. Horchow by another brother, Leo Brilliant, a prominent merchant of Zanesville, O., who arrived here Wednesday ostensibly for a visit, but really for the purpose of breaking the sad news to the sister as gently as possible. He had previously notified Mr. Horchow over long distance telephone and the latter at first suggested that the news be withheld from Mrs. Horchow until after the end of the present big war but it was finally agreed that Mr. Brilliant come here in person to acquaint her of what he had learned.

### News Came In "Roundabout" Way

News of the brother's fate was received by another brother, Jack Brilliant, of Newark, O., in a letter from a relative in Hamburg, Germany. It gave no particulars save that the dead officer had seen at most continuous service in the field against the Russians ever since he was called to the colors on September 17. He was a lieutenant in the reserves. He was an attorney or as styled there, a doctor of law in Tarnow, Galicia, and enjoyed a lucrative practice. He was married 4 years ago and is survived by his wife, Caroline Rea and a 3-year-old daughter. Mrs. Horchow visited him and his family during her visit to Europe last year while leaving Austria for home the day war was declared.

Another brother Oscar Brilliant is also serving as an officer in the Austrian army at Czernowitz, Bukovina and at last accounts was still alive. He was called to duty at the same time his brother was, September 17. Prior to entering the army he was employed in a clerical position.

### Relative Also Badly Injured

The same letter received by the brother at Newark also brought word of the terrible injuries suffered by a cousin, Alphonse Orendesch, a lieutenant in the German army. He made the campaign through Belgium and during the bombardment of Liege both his legs were shot away by shells. He is now back at his home in Hamburg in which city he was employed with a large firm of importers. He was decorated with the iron cross for bravery displayed on the battlefield. Three more cousins named Halpern of Leipzig and Alphonse and Godfried Orendesch of Hamburg are fighting with the Russian army.

Mrs. Horchow is also greatly concerned over the safety of a brother-in-law and sister, Mr. and Mrs. Simon Mensch, who lived in Le Mans. Not a word has been heard of them since that Galicia metropolis was occupied by the Russian forces during the early stages of the war.

### Try "GETS-IT," It's Magic for Corns!

New, Simple, Common-Sense Way

You will never know how really easy it is to get rid of a corn, until you have tried "GETS-IT." Nothing like it has ever been produced. It takes less time to apply it than it does to read this.

Kelly's Corn-Plaster in Every Market Use "GETS-IT" to Get Rid of Corns Surely, Quickly!

will be dunned, you, especially if you have tried everything else for corns. Two drops applied in a few seconds, that's all. The corn shrivels; then comes right off, painlessly, without fussing or trouble. If you have ever made a fat bundle out of your toe with bandages, used thick, corn-pressing cotton-rings, corn-pulling salves, corn-leaving plasters, you'll appreciate the difference when you use "GETS-IT." Your corn agony will vanish. Cutting and gouging with knives, razors, files and scissors, and the danger of blood-poison are done away with. Try "GETS-IT" tonight for any corn, callus, wart or bunion. Never fails.

"GETS-IT" is sold by druggists everywhere. It's a built-in, or sent direct by E. Lawrence & Co., Chicago.

## ROSE AND HER STAR BOARDER HOLD THE POLICE COURT STAGE

How they could go from a church and take a couple of swigs of whiskey then puncture the stillness of the night with "wild and woolly" singing was past the understanding of the mayor in dealing with Rose Watson and her star boarder, Bill Frazy, a Chillicothe pike farmer, Thursday.

Rose and her new boarder and some neighbors started out to attend a Holy Roller meeting but finding they were too late and that the services had ended repaired to the Wesley Mission hall. After the services ended there they returned to her home in Shakespeare's alley where they found a flask of whiskey had been conveniently placed there by another roomer named Timmonds. Soon Rose and her Billy were singing cowboy songs from her

admissions to the mayor but denied they had disturbed the neighborhood.

Officer Harding who appeared against them in court said another couple had participated in the party-making but made a get-away before he reached the scene. The mayor fined the two \$25 and costs each and sentenced them to 30 days in the workhouse but the woman begged so hard for mercy and promised so earnestly to leave town and go to relatives at Oak Hill that she may be given this opportunity. She has been a source of considerable trouble to the police for the past ten years though was probably started on her downward career by a husband abandoning her and throwing her upon her own resources many years ago.

## Mr. Jansen Plans To Open Branches

Fred Jansen, who is at the head of the Great Western Tea and Grocery Company, announced Thursday that he would soon open a branch store in New Boston and would open another store in this city within the next sixty days.

Mr. Jansen has a deal on for a suitable room in New Boston, and he stated Thursday that negotiations would likely be closed next Monday. "I have had a plan of this character under consideration for some time," said Mr. Jansen.

## CARDS WERE WRONG

The statistics regarding the support given by local Protestant churches to missionary funds as published in Wednesday's Times contained some errors in the figures for the First Presbyterian church. The figures, however, were those published on the cards distributed at the Laymen's meeting. That church gave a total of \$1432 for the home missions last year and the regular gifts for foreign missions amounted to \$810 while the special gifts to foreign missions was \$420 making a grand total of \$2662. The amount credited to the church in the published table credited the above church with only one third of that amount.

M. H. F. Kinsey, secretary of the Boy Scout work, was much elated Thursday when he was notified by the mayor that the full use of the York park ball grounds had been turned over to the Boy Scouts during the coming summer.

"Last year 300 scouts took part in athletic contests held in this park and we expect to increase the number this summer," said Mr. Kinsey Thursday.

"We had 20 ball teams in the field last year, and expect to boost this number as we will organize teams for boys under the scout age. The grounds will be put in good shape and for the scout teams."

Rev. Nolrott and Rev. Samuel Lindenmeyer, pastor of this church, were classmates 23 years ago. Mr. Nolrott is a splendid talker, and he gave a very interesting description of how lepers are cared for in India, he having had much experience in this particular line of work in India. He told about the mode of living in that far-away country and what an immense amount of good the missionaries are accomplishing in India.

Higgins, mayor of Bainbridge, O., advising that Mr. Sheridan had exceeded the speed limit of that burg and enclosing a warrant for his arrest. He asks that the warrant be served and he will have an officer sent after him.

## DOUBTS BILLY SUNDAY'S RECORD

A gentleman who said that his name was A. C. Alvord, called up The Times Thursday to say that he had read where Billy Sunday had converted 25,000 people in Philadelphia up to date. To this statement the man on the phone took violent objections. "I do not believe it at all," he said. "I know Philadelphia thoroughly, know lots of people there, and I do not believe it is possible for Billy Sunday or any other man to convert 25,000 people there in the time he claims."

Not knowing Philadelphia, but having heard a great deal of the rampant wickedness of the town politically, The Times is inclined to the opinion that the field is there for the number of conversions all right; whether or not Billy has made good his claims is left to himself and to Mr. Alvord.

## BETTER CITY BUILDINGS

Attention is drawn to the need for new and better city buildings of Portsmouth by a citizen who has just favored the mayor with a post card picture of the present structures on Second street.

The mayor in acknowledging the receipt of the card queries which is inscribed the query: "Do you think we could have something better?" replies as follows: "Permit me to say that submitted to the civic bodies of this city the plan of building city and county buildings on the site now occupied by the Second street school building and the present city buildings. I am still of the opinion that this should be done."

**It is Just Natural To Admire Babies**

Our attractive nature impels love for the young infant. And not a single time the subject of motherhood is ever before us. To know what to do that will add to the physical comfort of expectant motherhood is a subject that has interested most women of all times. One of the real helpful things is an external abdominal application sold in most drug stores under the name of "Mother's Friend." We have known so many grateful mothers, who in their younger days relied upon this remedy, and who recommended it to their own daughters that it certainly must be what its name indicates. They have used it for its direct relief upon the muscles, early, late, and tender as it aims to afford relief from the strain and pain so often unnecessarily severe during the period of expectancy.

Every woman should mention "Mother's Friend" when the stock is the subject of conversation. An interesting little book is mailed free upon application to Rialfield Regulator Co., 405 Lamar Bldg., Atlanta, Ga. It refers to many things that women like to read about. Get a recommendation a bottle of "Mother's Friend" to-day and write to the Rialfield Regulator Co., Atlanta, Ga.

## Bowling Films At Columbia Theatre

A National Bowling Tournament, full of action and the crash of pine—that's what Portsmouth people will be privileged to see on Wednesday, March 3, when 1,000 feet of the Chicago tourney will be displayed at the Columbia theatre.

According to a telegram received from William Barron, local representative of the Brunswick-Balke-Collender Co., of Cincinnati, these films will be here on the above date and will be reeled off at the Columbia.

Persons who never attended a National Tournament, have no conception of the wonders of such an affair, and no doubt the Columbia will be packed by those who are interested in the great game of ten pins.

Imagine a crowd of several thousand rooters, men and women, all yelling like mad, while

their favorite bowlers are rolling away on 16 new shining alleys. See the pins topple and crash and the faces of the bowlers light up as they hang up strikes or turn in spares. It's a sight long to be remembered and the films are sure to please.

Two Portsmouth teams participated in the Chicago tourney and it is barely possible they will be seen in action.

Wednesday, March 3, will be a great day at the Columbia theatre. In addition to the bowling pictures, Manager Tynes has secured "The Man on the Box," a five reel drama that has won for itself a most honored place in the motion show world, and a production that is sure to please. Tickets are being rapidly sold for these two great features. They can be secured at the Play House or from any of the members of the Peoria Bowling Team. Tickets can also be purchased at the Columbia theatre. Better secure yours now.

## GERMANY'S BLOCKADE OF THE BRITISH ISLES INCREASES ITS TOLL

BULLETIN

London, Feb. 25.—The small British coasting steamer Western Coast has been sunk by a mine or torpedo in the English Channel at a point off Beachy Head. The crew was landed at Portsmouth today.

London, Feb. 25.—One sailor lost his life when the small British steamer Deptford, 230 feet long and 1,208 tons, was sent to the bottom in 20 minutes, either by a German torpedo from a submarine or by coming in contact with mine, in the North sea at three o'clock yesterday morning at a point off Scarborough. The fifteen other members of the steamer's crew were saved and were landed at South Shields at an early hour this morning.

The engineer of the Deptford says he was on duty in the stock-hold when the torpedo hit the Deptford. He says he saw a flash of blue flames shoot up from the bottom of the ship and through her deck. The force of the explosion threw him down violently and stunned him. He managed to reach the deck, however, just as the life-boat was being launched. It was the engineer of the Deptford who lost his life.

London, Feb. 25.—A dispatch to Lloyd's Agency from New Haven says the steamer Rio Paraná, of London, laden with coal and bound from Tyne to Portoferraio Island of Elba, struck a mine five miles southeast of Beachy Head at three o'clock Wednesday afternoon. The explosion tore a hole in the vessel's starboard side and she filled and sank. The crew of the vessel was rescued by a torpedo boat and landed at New Haven.

London, Feb. 25.—The British steamer, Harpalien, from London for Newport News without cargo, has been torpedoed off Beachy Head. She was struck amidship. Three of the crew, Chinamen, were killed. Two others were seriously scalded. Forty-one members of the crew landed here.

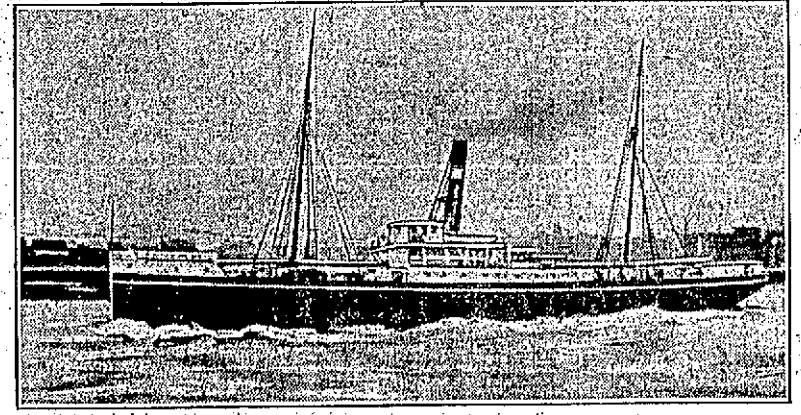

**MINNEHABA SAILS**  
New York, Feb. 25.—The Minnehaha of the Atlantic Transport line which sailed today for London carried only two passengers, Ernest Plant and Reginald Matthews, who planned to join the British army. The Minnehaha carried more than 10,000 tons of freight, mostly food for the British Isles.

## RUSSIA DENIES TENTH ARMY ANNIHILATED

Petrograd, Feb. 25.—The general staff of the Russian army has issued a statement concerning the recent occurrence in Russian Poland and the German claims to a sweeping victory which reads as follows:

"Official announcements given out in Berlin to the effect that the Tenth Russian army suffered a severe reverse in its retreat to the rivers Niemen and Dvina are absolutely not correct. The German declarations that the Tenth army has been completely annihilated can be categorically denied. As a matter of fact the component parts of two of our corps, the Twentieth and another, finding themselves in an untenable and dangerous situation as we already have announced, withdrew from their positions at Wierbelen, Russian Poland, with heavy losses. As to our other corps these troops after having foiled an attempt of the enemy to surround them are holding today the positions allotted to them and for several days past they have been engaging the enemy. Along this entire front our allies are fulfilling successfully the duties assigned them. During the past few days two regiments of the Twenty-ninth division, belonging to the Twentieth corps, advanced from Augustow forest and rallied our men."

## Frank Case Up For Hearing Again Today

Washington, Feb. 25.—The fate of Leo M. Frank, under death sentence for the murder of Mary Phagan, the Atlanta, Ga., factory girl, depends upon the outcome of oral argument of his case which were to begin late today before the supreme court. Attorneys in Frank's behalf were ready to argue to the court that he should be released on a habeas corpus writ on the ground that mob violence and his absence from the trial court when the jury's verdict of guilty was returned deprived the court, of jurisdiction over him. Representatives of the state of Georgia were to argue that he had had ample opportunity to raise the point of alleged mob violence and that he had not done so in due time. They also had prepared to argue that waiver by Frank's former attorney of his right to be present when the jury returned its verdict was binding on him.

## ABOLISH SPECIAL DEFENSE BOARDS

Washington, Feb. 25.—Five special defense boards are abolished by war department orders promulgated today. The work which these special boards previously have done will hereafter be directed by a general board of review, composed of from five to seven officers on detail in Washington, who will from time to time make recommendations regarding the country's defenses. The special boards which have been ordered dissolved are the National Land Defense board, which has been charged with looking to the proper protection of the land approaches of coast defenses, the Cape Henry defense board, the Long Island Sound defense board, the Panama Fortification board and the Philippine defense board.

## INDIANS WILL BE GIVEN CHANCE TO SURRENDER

Denver, Colorado, Feb. 25.—No further attempt to effect the capture of The-Ne-Gut, the Piute Indian wanted on a charge of murder, and the members of his band, will be made by United States Marshal Nebeker until Government Indian agents, acting upon instructions from Washington, have offered the fugitives another chance to surrender, according to a dispatch from Bluff, Utah. Scouts are said to have discovered the Indians about 15 miles southwest of Bluff. Another refusal of the Indians to surrender will be followed, it is stated, by a second attempt by Marshal Nebeker's posse to surround and capture them. Instructions received by the Indian agents yesterday from Washington are said to have urged that every possible effort be made to induce the Piutes to surrender before attempting to take them by force.

### GERMAN-AMERICANS FOR AMERICA FIRST

The two great German-American leaders in this country are Congressman Bartholdt of Missouri, and Herman Ridder, editor of the New York Staats-Zeitung. Both deem that in case of trouble with Germany the German-Americans would be a unit for their adopted land. Says Editor Ridder: "The man in Germany or in England who thinks for a moment that the American people—and I mean by this all the people in the United States—would not present a firm and united front to a foreign foe is lamentably mistaken." Says Congressman Bartholdt: "The Germans of this country are for America against England; for America against Germany; for America against the world. They will not waver for one second in their allegiance to their adopted land."

## GOVERNMENT TO PROBE ALLEGED JUNK TRUST

Los Angeles, Calif., Feb. 25.—Elias M. Blanford, special agent of the department of justice here, has received instructions from the department at Washington to begin an investigation in various cities throughout the country of the so-called "junk trust." The investigation, it is understood, will deal with the operations of the Great Western Smelting and Refining company, a Maine corporation, its allied subsidiary companies, and with the history of corporations bought by or merged with the Western company. The investigation will seek to find whether these companies are in control of trade in glass, bottles, rubber and similar goods in this country.

## SENATE FIGHTS OVER SEED DISTRIBUTION

Washington, Feb. 25.—With only six working days remaining of the present session of congress, prospects of enacting any other legislation aside from the appropriation bills before adjournment was regarded by Senate Democratic leaders today as very slim and they were concentrating practically all their efforts towards the passage of the supply measure. An indication of the intention of administration leaders to "speed up" work on the appropriation bills is seen in the fact that the senate after passing the postoffice appropriation bill yesterday, worked far into the night on the agricultural appropriation bill carrying about \$23,000,000. Except for a few disputed items—including an appropriation of \$400,000 for distribution of seeds which was stricken out by the senate committee—consideration of the measure has been completed. Senator Martino was to fight for restoration of the provision.

## TOBACCO MEN CAN'T BUY IN AMSTERDAM

New York, Feb. 25.—A committee of tobacco manufacturers who usually go to Amsterdam every spring to buy at auction their supplies of humatra tobacco for six months recently sent a letter to the department of state telling of their fears to travel through the war zone and intimating that they would be glad if the authorities would send a battleship to convey the vessel on which most of them would sail for Holland. An answer from Counsellor Lansing of the state department made public today by the Leaf Tobacco board of trade: "You are informed that the department must for the present, in view of the disturbed condition of affairs in Europe, leave it to each person contemplating a visit there to decide for himself whether or not it would be wise to postpone his visit until affairs therein shall have resumed their normal state." As they pay import duties of almost \$10,000,000 the manufacturers, it is stated, expected a different reply to their request for a convoy.

### PROBE PRICE OF BREAD

Pittsburgh, Feb. 25.—Inquiry into the plans of local bakers to increase the price of bread is being made by the federal department of justice here. The master bakers' association of Western Pennsylvania at a meeting Saturday advanced the price one cent a loaf on all size retailing under ten cents but no date for the advance was fixed.

Bert Niehoff.

Bert Niehoff of the Cincinnati Reds, a rapid traveler, and "Guvvy" Craveth of the Phillies, a slow mover, ran a dead heat in the National League last season, so far as shunting into double plays was concerned. Each batted into twenty-one duplex killings.

## WILL START DOOIN

Charley Dooin will catch the opening game of the season at Redland Field on April 14. This is the first definite announcement made by Manager Herzog as to his battery plans for the first championship series. Of course he has not as yet picked his pitcher for the first game, but he has determined to work Dooin behind the bat, not only in the opener, but in many more contests during the early season. The Red leader is going to prime Dooin during the work at the training camp, for much early service behind the bat in regular games, believing that he will help out the younger pitchers on the staff and assist in improving the general defensive strength of the team.

## May Quit The Central

It is said that the Terre Haute owners are still in rebellion against remaining in the Central League and that this city will not be started in the circuit which President Louis Hefelfinger has worked so hard to perfect. ## Recovers Watch

The fine gold watch which John J. Smith, a foreman at the Harbison-Walker brick plant, advertised in the Times as lost, and offering a \$10 reward for its return, has been recovered by him. The watch was found by Clifford Isam, a negro, in front of the August Province home at Eleventh and Monroe streets, Saturday night. Mr. Smith had left positive he lost the watch somewhere about the brick plant and though he promptly paid ten dollars to Isam asked Chief McCarty to investigate his story of the finding.

## BIG EATERS GET KIDNEY TROUBLE

Take a glass of Salts before breakfast if your Back hurts or Bladder bothers you.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out. They weaken from overwork, become sluggish, the eliminative tissues degenerate and the result is kidney trouble, bladder weakness and a general decline in health. When your kidneys feel like lumps of lead, your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with acid headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jai Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys; to neutralize the acids in the urine so it is no longer a source of irritation, thus ending bladder disorders. Jai Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

Flanagan set for March 6 at Havana, and that the fight would occur in Havana.

"Will fight Willard here. Fight will draw as much as Jeffries-Johnson fight. There is not a chance for me to go to Mexico."

## Will Battle Village Lads

Manager Will Hanchausky of the Wheelersburg high school athletic association has received a reply in his challenge issued several days ago to Portsmouth high school for a basketball game. Will Smith, local high school student, wrote Hanchausky that he would get up a team and give the village lads a battle. He also has a letter from Manager J. B. Cobb of the South Western High School also repudiating several games. Manager Hanchausky yesterday said: "We are anxious to play them but they will have to guarantee us that they will have a team composed only of high school students."

## Ready For Big Fight

Milwaukee, Wis., Feb. 25.—Freddie Welsh, world's lightweight champion and Charlie White, Chicago aspirant to the title, are ready for their ten round no decision contest in Milwaukee tonight.

While no decisions are permitted under the Wisconsin law, should White knock out his opponent, the title would revert to the Chicago boy.

When the two met here several months ago Welsh had the advantage of several pounds in weight and sporting writers awarded him the decision.

## Join New Team

(State Journal)

Shortstop Danbert, outfielder Bittle and pitcher Applegate, of the Charleston club of the Ohio State League, have been sold to the Rocky Mount, Va., team of the Virginia League. All hundred-hits of holdover teams of the Ohio State League are not with holding promotion to any player for whom there is a demand. Consequently when the new start is made around May 1, there will be plenty of brand new performers for the clubs' patrons to look over.

## ENTERTAINMENT AT HIGH SCHOOL WAS PLEASING

Music-lovers in the city were given a rare treat Wednesday evening when the Schumann Quintet, a splendid musical organization, rendered one of their delightful programs at the high school. Every seat was occupied and a number of extra chairs were used.

Every member of the Schumann Quintet is an artist. Carl A. Lambert, organizer and manager of the Quintet, kept the audience in a good humor throughout the entire

program by his witty introductory remarks. The company is composed of Mr. Lambert, violinist; Mrs. Lambert, pianist; N. Zedeler, cellist; Mrs. Zedeler, organist, and Norman Weiler, violinist. The closing number was selections from "Faust" and they were effectively rendered. The audience declared the number to be one of the best of the High School Lecture Course. The company left Thursday for Mayville.

## Compliments Local Maccabee Lodge

Highly complimentary was the statement of Colonel W. C. Allen of Dayton, general inspecting officer of the uniformed rank, Knights of the Maccabees, who inspected the local company on Wednesday evening at the Jr. O. U. A. M. hall. Everything was found in first class shape, the uniforms and paraphernalia in splendid condition and the commands were executed faultlessly.

Colonel Allen also made a close inspection of the books and finances of the local order, and found the affairs of the lodge to be in excellent shape. The financial affairs were very encouraging, he declared, the officers were doing their work well, and the

membership was evincing the right sort of interest. He especially complimented the members of the uniform rank and degree team for the interest they were taking in the lodge work.

### QUITE READY FOR A FRAY.

Stories ignorant, malicious, foolish and unpatriotic are spread abroad over the land as to the unpreparedness of the United States for war. They run all the way from the impotency of our navy and army, through the lack of proper armament to the utter absurdity that there is not enough powder in the arsenals to last for a day.

The actual, simple facts are that in mere numbers of ships, these United States ranks third among the naval powers, being exceeded in this respect only by England and Germany. In modernization of her navy, it is doubtful if she be even surpassed by England, the boasted mistress of the seas. She has 25 battleships of the first class fully the equal, if not the actual superior of anything England has. She has better guns and better gunners than any other nation and the fighting efficiency of her sailors is reckoned superior to any on the water, except the Japanese. Her army, her land forces are not great in number, but amply sufficient to resist invasion and their equipment is the best that genius can invent and skill make. The war stores are amply sufficient for any emergency.

Any statements to the contrary of this are born in wicked ignorance, or out of a foul purpose. On sea and on land America's enemies have always found her ready enough for them and outside of the sensation mongers of the press, the world understands she is just as ready and capable today as she ever was at any other time, when her bugles called to arms.

### THE SELECTION OF DEVANNEY.

And so Michael Devanney wins in a long fight and will hold forth as the United States marshal for the Southern District of Ohio, having been endorsed by Senator Pomerene and nominated by the president upon that recommendation. The selection of Mr. Devanney was made in the face of the opposition of the organization Democrats in Hamilton county, and also in the face of the opposition of hundreds of Democrats in other counties in the district. Why then, was Devanney named, in the face of such opposition? It may be said the answer is equally plain. His nomination came at the request of former Governor Judson Harmon, and it is said to have been the one request that Mr. Harmon had made of Senator Pomerene, in whose election to the senate the former governor had been a most important factor. One may appreciate the dilemma in which Senator Pomerene found himself, political considerations calling for the selection of some one else, and personal gratitude calling for the selection of Mr. Devanney. Senator Pomerene chose the latter, he braved possible political reprisal and made good to the man who had stood by him.

Of course there will be disappointment and temporary rage at the result. But when there has been time for consideration, it will be seen that Senator Pomerene took the course that most any man with red blood in him would have taken.

Politically we think the selection of Mr. Devanney was a serious blunder, and many others of Senator Pomerene's friends think the same. Personally we admire him for the stand he took, all circumstances considered.

### WORKS BOTH WAYS.

In a certain gullant western state fair women is given everything she wants and some things she doesn't want, all for the mere asking. If she chooses to change her mind and airily set the law aside after she has demanded and got it, why that's her privilege and mere man has not to say her nay. She exemplified this natural right the other day. In this certain state she has the privilege to vote and at her direction a law was put upon the statute book, making it a strongly penal offense for any one to employ her over ten consecutive hours. Under the former she asserted the right to officiate as judge and clerk of election, but when it was pointed out to her this would be illegal because judges and clerks had to work for more than ten hours at a stretch, she said such a law as the latter was foolish and she would ignore it. And she did.

Ring around roses, pocket full o' posies. May be that's the game the assembly is playing, instead of law making. Leastwise it is guilty voting itself knives, mirrors, nail cleaners, crabs du visit and bouquets.

AT PUBLIC EXPENSE.

### ANOTHER VOICE LIFTED.

"It takes more ability to keep out of war than it takes to get into it. Let us show the world we are not any pikers in the ability line." In that injunction the Marion Star, Senator-elect Warren Harding's paper, pays far more of a compliment to a Democrat than is usual with it. Of a truth, it comes as near aligning itself with the frank and manly call of all Americans to rally to the support of President Wilson in his policy of steel neutrality as we take it to be possible with it.

Mr. Wilson has not only arduous, but exceedingly delicate work to perform in keeping this government out of war. In his task he needs not only the encouragement, but the comfort and cheer of the hearty support and co-operation of his people, regardless of party. Certainly, here and there will be found the rattle-brain and the peanut-head, who will berate him without either rhyme or reason. That doesn't matter, so much for these are the pinnacles and quarts but that annoy. The earnest sympathy, the full good will of the masses are the things that really count. Nobody wants war, least of all the fellows that find glib fault with the Wilson policy. The way not to have it is to stand solidly behind the brave, patient man, who is so devotedly setting himself to the preservation of peace.

## Name Is Rhoden

Officer Campbell reported to his quarters Wednesday night that Ray Rhoden was the correct name of the youth he caught with Miss Marion Summers, of Ashland, Ky., in the Highland school building vestibule Monday evening. The youth's mother, who lives at No. 1027 Fifth street, assured the officer that her boy would appear in court as soon as he returned from the country. The girl has also been ordered to appear before the mayor.

At the time of his arrest, young Rhoden gave the name of Carl Brady.

### Feasting On Jelly.

"One good turn deserves another" said two pretty girls employed at the Patterson Box Factory, and so after dropping a glass of jelly on the sidewalk in front of the mayor's office Wednesday afternoon, they gave the broken jar and contents to Turnkey Joe Stokely. They did so because the day before Joe had loaned them a "shower stick."

"Dan," the aged flunkie at the city prison has since been feasting on that jelly.

### A KENDALL AVENUE POINT.

There is one point about that resolution of the N. & W. to be considered by council when it takes up the question of future vacation of Kendall avenue—would formal action by council declaring its intention not to oppose the vacation of the street thereby make the city responsible for any and all damage claims that might result from the vacation of the crossing? Would such action relieve the railroad from responsibility and saddle all obligations onto the city? This is an important point and it should be settled definitely before council acts.

### Trundle Bed

As I wandered round the homestead,  
Many a dear familiar spot,  
Brought within my recollection,  
Seemed I'd seemingly forgot;  
There the orchard, meadow yonder,  
Here the deep old-fashioned well,  
With its old moss covered bucket,  
Sent a thrill no tongue can tell.

The house was held by strangers  
All remained the same within,  
Just as when a child I rambled  
Up and down and out and in,  
To the garret dark ascending,  
Once a source of childish dread,  
Peering thro' the misty eul-wells,  
Lo, I saw my trundle bed.

Quick I drew it from the rubbish,  
Covered o'er with dust so long,  
When behold I heard in fancy  
Strains of my familiar song,  
Often sung by my dear mother,  
To me in that trundle bed,  
Hush, my dear, lie still and slumber,  
Holy angels guard thy bed.

While I listened to the music,  
Stealing on in gentle strains,  
I am carried back to childhood,  
I am now a child again;  
'Tis the hour of my retiring,  
At the dusky even-tide,  
Near my trundle bed I'm kneeling  
As in yore by mother's side.

Hands are on my head so loving,  
As they were in childhood days;  
I with weary tones am trying  
To repeat the words she says:  
'Tis a prayer in language simple  
As a mother's lips can frame,  
Father, thou who art in heaven,  
Hallowed ever, be Thy name.

Prayer is over, to my pillow,  
With a good-night kiss I creep;  
Sincerely waiting while I whisper,  
'Now I lay me down to sleep',  
Then my mother o'er me bending  
Prays in earnest words but mild,

"Hear my prayer, Oh, Heavenly Father,  
Bless, Oh, bless, my precious child."

Yet I am but only dreaming,  
Ne'er I'll be a child again;  
Many years that dear mother  
In the quiet graveyard lain,  
But the blessed, holy spirit  
Daily hovers o'er my head,  
Calls my thoughts from earth to heaven.

Even from my trundle bed,  
MARIE MILLER,  
Portsmouth, Ohio.

### THE ADVENTUROUS PELICAN

A pensive Pelican one day was standing by a pond,  
Profoundly meditating on his lot,  
He had been standing this way for perhaps an hour or more,  
And seemed to be asleep—but he was not.

Thought he, "I am a water fowl, that fact I won't deny;  
But even so, I do not understand  
Just why I should remain here by this pond all of my life.  
I think I'll take a journey overland."

But when he told his parents of his plan to take this trip,  
They flapped their wings and cried in great alarm,  
"You'd better stay right here at home and not be gadding round,  
For certain as you do you'll come to harm!"

Although they warned him thoroughly it did no good at all,  
The Pelican had quite made up his mind.  
Said he, "You may as well keep still—I start this afternoon  
To see just what adventures I can find."

So when they saw that he was bound to go, they hurried round  
And put some lunch up for him in a dish.  
They said, "It's our impression, in a journey overland,  
The thing you'll miss the most will be your fish."

So he set out and traveled till he thought 'twas time for lunch.  
Said he, "I'll eat right here upon the ground."  
But as he was about to take a lovely bite of fish,  
Just back of him he heard a dreadful sound.

In much alarm he looked around and saw a big Wild-Cat,  
Who said to him, "Now, what are you about?  
I'm very fond of fish myself, so just hand over those."  
They must have been cat-fish, beyond a doubt!

The cruel grin and whiskers of the great big Cat were such  
The Pelican was almost dead of fright.  
He didn't wait a minute to exchange the time of day;  
He simply up and flew with all his might.

And before so very long that pensive Pelican reached home,  
As frightened and as hungry as could be.  
Said he, "Adventures are all right for those who like them, but  
They're a little mite too dangerous for me!"

### Why He Didn't Stay In Hole

Strickland Gillilan, the humorist, of "Off again, on again, gone again, Finnigan" fame, selects as the best story he ever heard the following yarn originated by the late Bob Burdette:

"Once upon a time two men were crossing a large field. When they were right in the middle of the field, a big brindle bull came along to show them the nearest way to the fence."

"One of the men found a tree and climbed it like a monkey. The other couldn't get to the tree in time, but, seeing a large scabbie-looking hole in the ground, he jumped into the hole."

"The bull pretty nearly got him, but he ducked and the bull jumped on over the hole. The man came up again like a jack-in-the-box. The bull gave a snort and a jump at him. Down went the man and over went the bull, up came the man and back came the bull, till the man up in the tree got excited and called down:

"You blundered fool, you, why don't you stay in that hole? You'll get that bull so mad he'll keep us here all summer."

# Pittsburgh Packet Service To Be Resumed Saturday

Through packet service between Cincinnati and Pittsburgh which has been suspended for some months past, will be resumed Saturday when the steamer, City of Parkersburg, will be started out from the former city on her first trip of the season.

The Parkersburg, which has been tied up at the Broadway wharfboat in Cincinnati since the middle of December, will leave for Pittsburgh in charge of Captain Hutchinson and is due to pass here Sunday morning at 3 o'clock.

Advices from Pittsburgh are also to the effect that overtures have been made by Commodore John W. Hubbard, president of the Ohio and Mississippi Navigation company, for a limited charter on the packets, Queen City and the Parkersburg, to be operated in the Pittsburgh and Cincinnati trade by rivermen who believe a two packet system between the two terminals will show good return on the investment. It is said Commodore Hubbard is considering the charter proposal and will announce his decision before the close of the week. The proposed lessees are said to be men who have a wide experience in operating steamboats.

Should the two packet system in the Cincinnati-Pittsburgh trade be resumed and with the Greene Line establishing daily packet service in the Portsmouth-Cincinnati trade beginning March 1 the river should again take on an old time appearance.

## AMPUTATED LIMB

Charles Hunter, who a week ago was struck by a crane while employed in the Whitaker-Gleason Company's steel plant in New Boston, and who suffered a compound fracture of each leg, had his right leg amputated just above the knee Wednesday night. Hunter, who stood the ordeal admirably and his general condition was reported more favorable at the Hempstead hospital, Thursday. Dr. Harry Schreinemakers, W. W. Smith, William Schreinemakers and William Seltz, amputated the unfortunate man's leg. The left leg, in addition to being broken in two places, was badly mangled.

Hunter is a married man and has a wife and four children living at Gullin and Young streets.

# To Urge Passage Of Car Limit Bill

The mayor is co-operating with the local Brotherhood of Railway Conductors in urging favorable action on the bill jointly introduced in the house and senate at Columbus limiting the car length of freight trains.

Writing to Senator W. D. Tremper, the mayor gives as a reason why the measure should be favorably considered, aside from any reason that may be advocated by railway employees, the conditions created in Portsmouth by long trains and which is also true in most other cities. N. & W. trains with one hundred cars enter Portsmouth from the north and extend over several blocks as their

tracks angle through the city. A stop is made for the B. & O. S. W. crossing and in starting such long trains, oftentimes a coupling is broken, requiring them to back in to re-assemble the train and meanwhile another crossing is covered, then the train again moves in a forward direction, covering the Waller and Officers street crossings and blocking all street traffic and dividing the city which is particularly dangerous in times of fire. If these trains were limited to about forty cars in length and require to pass at about ten minute intervals the most of this condition would be eliminated.

# MR. SHUMP ALSO FAVORS BUILDING OF FLOOD WALL

J. E. Shump is in hearty accord with his fellow city councilmen in pushing the proposed extension of the city flood wall.

"I am in favor of going right ahead with the improvement if the necessary money can be provided,

and I guess it can," said Mr. Shump. He thought that it might be necessary to submit the proposition to a vote of the people, but believed the citizens would vote for the bond issue. "Yes, I'm in favor of going ahead and doing what we can," added Mr. Shump.

# Bowling Films At Columbia Theatre

A National Bowling Tournament, full of action and the crash of pins—that's what Portsmouth people will be privileged to see on Wednesday, March 3, when 1,000 feet of the Chicago tourney will be displayed at the Columbia theatre.

According to a telegram received from William Barron, local representative of the Brunswick-Balke Colender Co., of Cincinnati, these films will be here on the above date and will be recited off at the Columbia.

Persons who never attended a National Tournament, have no conception of the wonders of such an affair, and no doubt the Columbia will be packed by those who are interested in the great game of ten pins.

Imagine a crowd of several thousand rosters, men and women, all yelling like mad, while their favorite bowlers are rolling away on 16 new shining alleys. See the pins topple and crash and the faces of the bowlers light up as they hang up strikes or turn in spurs. It's a sight long to be remembered and the films are sure to please.

Two Portsmouth teams participated in the Chicago tourney and it is barely possible they will be seen in action. Wednesday, March 3, will be a great day at the Columbia theatre. In addition to the bowling pictures, Manager Tynes has secured "The Man on the Box," a five reel drama that has won for itself a most honored place in the motion show world, and a production that is sure to please.

# REJECTING CHRIST MAKES GOD A LIAR

**SAYS REV. ALBERT L. MARTIN**

Before an appreciative audience Rev. Albert L. Martin preached on "The Sway of Sin" at the Fourth Street M. E. church last evening. The basis of the discourse was Romans 3, 23-25: "There is no difference; for all have sinned and come short of the glory of God"; also I John, 1, 8 and 10: "If we say that we have no sin we deceive ourselves and the truth is not in us. If we say that we have not sinned, we make Him a liar, and His word is not in us."

A glance into a newspaper, into the world about us, into our homes, soon proves to us that there is sin in the world. However it may have gotten there, the fact of sin is evident. Coming closer home, a little introspection proves its existence in our own lives. If you claim immunity from sin, you know better, and you had better get off of your Pharisee perch before you fall off, for you will take an awful tumble when you do. Not only must we tell ourselves that sin in some form lurks within us, but God's word tells us plainly that "all have sinned." Yet some will deny. But if we deny sin, we first of all deceive ourselves. Now get that: You are not self-deceived against better intentions, but you are deliberately deceiving yourself. You are "pulling the wool" over your own eyes. And when you do that, you make a hypocrite out of yourself; you call black white, and the truth is not in us. You can't trust yourself, nor can anyone else trust you. You have deliberately chosen to blind yourself to the fact. There you make God a liar. Oh, no, you don't call Him one, you know better, but you do worse—you make Him one. You can call a man a liar, when he

# Got A Cold And Seeks Damages

Three thousand dollars damages that the day mentioned was exacted from the United Fuel and Gas Company by George Schaefer of Sciotoville, in a suit entered in common pleas court Wednesday.

Schaefer claims that he has suffered in that amount from exposure while in the company's employ, it being alleged that he contracted a chill which afterward developed into pneumonia and pleurisy of the left lung.

In his petition Schaefer alleges that on November 9, 1913, he was employed with Lee Little at the New Boston station of the company, which, he claims, was a tumble-down building, poorly heated for work during the winter of 1914-1915.

Negligence of the company is charged, Schaefer claiming that he had advised the officials of the bad heating facilities of the building, which they had promised to remedy; a promise which they never kept.

# Observance Of Lent Is Urged By Pastor

In his sermon on "Self Sacrifice" at the All Saints church Wednesday evening, Rev. John W. Dunning, pastor of the First Presbyterian church, discussed the subject from three standpoints; first, dealing with our natural appetites; second, dealing with the realm of duty; third, dealing with the realm of service. His references had to do particularly with the Lenten season.

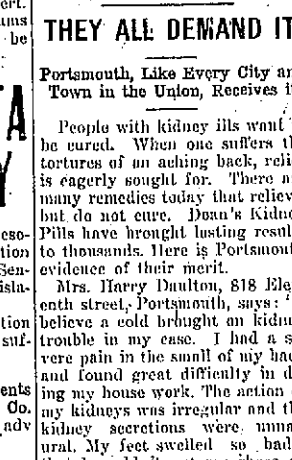

In the observance of things which in themselves are not wrong the character and influence of the Christian life are not only conserved, but heightened, according to the speaker, and exert a corresponding influence upon those who come in contact with that life of sacrifice.

The ordinary duties that devolve upon a Christian should be faithfully executed during the Lenten season, and in addition to

that, he should take on some special service that involves self-sacrifice. Money, time and one's life, itself is, indeed in the realm of service, and the Christian should give of each to the point that it is sacrificial. The importance of attendance upon public worship, church attendance and consecration to their commission as evangelists, were among the things advocated by the speaker for the true Christian during the Lenten season.

A large crowd attended the service, which was the first of several to be held during the Lenten season, which will be addressed by outside speakers. In addition to them, the regular Lenten observances are held daily, in charge of the rector, E. Anger Powell, Rev. H. J. D. Sterrett, rector of St. Paul's church, Columbus, is scheduled to speak Friday evening.

# SUBMARINES OF THREE LEADING EUROPEAN POWERS AT WAR

These under water fighters of the German, English and French navies, though comparatively inexpensive, are capable of doing a tremendous amount of damage in a short time. As there are no German boats in European waters, the English and French have had little opportunity to test the value of their submarines. The German submarine here shown is a sister to the U-9, which sank the British cruisers Aboukir, Cressy, Hogue and Hawke.
